CHINA TO DEMAND A BIG INDEMNITY

Six Millions in Gold From Mexico for Slaughter of 303 Chinamen.

BACKED UP BY A CRUISER

Trouble Occurred During Mexican Revolt—Claim That Many of the Chinese Were Slain in Most Inhuman Manner.

Mexico City, June 9.—An indemnity of $6,000,000 gold will be demanded of Mexico by the Chinese government for the slaughter of 303 Chinese subjects and the destruction of their property in Torreon, it was asserted today. The demand will be backed up by a cruiser which is already on the way to Mexican west coast ports.

Three investigators returned today from Torreon and placed in the hands of Shung Hai Sun of the Chinese legation, a detailed report of the carnage. This report shows that many of the Chinese were slain in a most inhuman manner and that besides a Chinese bank and club house, 89 places of business were sacked.

In addition to the indemnity, an apology for insult to the Chinese flag will be demanded; also that aid be extended to destitute families of the victims, that the guilty be punished and the constitutional guarantees of protection to Chinese lives and property be made effective.

Of the 12,000,000 pesos indemnity to be asked, two million is for property damage and the remainder for the loss of lives.

"I am friendly, as is my nation, to the Mexican people and to the revolutionary cause," said Mr. Shung. "I will first present my case to the Mexican government for its decision, which, if favorable, will settle the case amicably. If it is not accepted a detailed report of the crimes will be given to the world. A cruiser has been sent by the Chinese government to Mexican points, carrying persons who will continue the investigation of the treatment of Chinese throughout the Republic and who will also assist in pacifying the Chinese residents in the country."

The report made by the investigators goes back to the anti-foreign excitement starting on September 16th, Mexico's centennial, when at a public meeting in Torreon the "killing of the Spaniards first and then the Chinese" was advocated by a speaker.

Gen. Reyes Arrives.

Mexico City, June 9.—"Down with Reyes," "Viva Madero," Such was the first greeting extended to Gen. Bernardo Reyes when he arrived in the capital this afternoon. A few houses and residents were at the station,but the Maderoistas were the first to acknowledge their presence. There were no troop formations.

Gen. Reyes was not formally received with the honors to which an officer of his rank is entitled. His reception was such as any civilian might receive.

The general was taken to the home of Rodolfo Reyes, his son. Gen. Reyes in response to the demand of the crowds, appeared at an upper window and delivered a speech in one sentence.

"In the democratic contest upon which we are entering," said he, "I will always be found, as I have been in the past, loyal to the people of Mexico. Francisco I. Madero expects to meet Gen. Reyes tomorrow.

CORONATION CEREMONIES.

Rehearsals Now in Progress for England's Big Celebration.

London, June 9.—The coronation ceremony was rehearsed today in the Abbey church of St. Peter, Westminster, many of the principal participants being coached in the roles which they will have to fill June 22nd, the day on which King George will be crowned.

The entry into the Abbey, the procession up to the altar and the religious services all were rehearsed, the Archbishop of Canterbury at appropriate moments performing the actions of crowning and annointing with oil those representing King George and Queen Mary. The crowns on this occasion were circular pieces of pasteboard.

The Canadian contingent of soldiers who have come over to attend the coronation, received a stirring welcome on landing today at Liverpool. The Lord Mayor of Liverpool met the Canadians and the streets through which they marched were thronged with citizens.

HONOR FOR GEN. EVANS.

Will Become Adjutant General of State of Georgia.

Atlanta, Ga., June 9.—Gen. Clement A. Evans, ex-commander-in-chief of the United Confederate Veterans, and a member of the State prison commission, who has been offered the position of adjutant general of Georgia by Governor-elect Hoke Smith, today announced his acceptance. He will succeed Adjutant General A. J. Scott, who has been at the head of the State militia for several years.

TWO KILLED IN AERO MISHAP

German Aviator and His Mechanic Met With Fatal Accident While Trying for Altitude Record —Body Mangled.

Johannisthal, Germany, June 9.—Herr Schendel, who on Tuesday established a German altitude record of 6,594 feet in an aeroplane, fell this evening with his mechanic, Voss, and both were instantly killed. Schendel was trying to eclipse the world's altitude record with a passenger.

The aviator, who was practically a beginner, arose this evening in a Dorner monoplane and had reached a height of 6,560 feet when the monoplane was seen to assume a vertical position, and it is believed that Schendel was trying to glide to earth with his motor shut off. Once for a brief period, he seemed to have righted the machine, but almost immediately again lost control of the monoplane and shot to earth with terrific speed, landing just outside the aviation field. So great was the velocity of the fall that the prow of the machine was buried in the earth. The bodies of Schendel and Voss were frightfully mangled.

STANDARD WORKING HOURS.

Address of Miss Josephine Goldmark, in Boston Yesterday.

Boston, June 9.—Fatigue in men and women is not a philanthropic or sentimental fiction, it is a chemical fact, according to Miss Josephine Goldmark, publication secretary of the National Consumers' League, who addressed the National Conference of Charities and Correction this morning on "Standard Working Hours."

"In the lives of working people," said Miss Goldmark, "no single factor counts as much for good or ill as the length and regularity of their working hours. Even such important matters as wages, housing and insurance are subordinate. No reform, no betterment, is as important as the adjustment of work to human effort. All the possibilities of life, the workers' whole plane of existence, rises and falls with his scale of time expenditure.

"For the past half century scientists have been studying the intricate problems of fatigue and learning its laws in the seclusion of the laboratory. During the same period, working people and their friends have been seeking against the most powerful opposition, protection from industrial overfatigue and exhaustion. Between the two groups there has been an unbridged abyss. Those who have sought legislation year after year, so often in vain, have not even known that there were laws of fatigue, the scientific and demonstrable basis for their claims. On the other hand, scientists and physicians have studied muscle and nerve, frog jerk and pigeon flight in infinite detail, without as yet applying the laws and facts so acquired to the phenomena of fatigue in the largest classes of our population, the wage earners.

"The United States Supreme Court finally decided that it is within the province of State legislators to limit the hours of working women. That was in 1908. Within the next two years the Supreme Courts of Illinois, Michigan and Louisiana followed suit. The effect of these decisions has been electrical. During the first three months of 1911, three States—California, Washington and Colorado—passed laws limiting women's work in the industries to eight hours per day. Two States—Missouri and Utah—passed nine-hour laws, and Delaware passed a ten-hour law which failed to receive the Governor's signature. None of these laws permit any overtime work, which is one of the most important tests of effectiveness of this kind of legislation, for it does not leave a loophole to deprive women of protection at the very time when most urgently needed."

Miss Goldmark made a special plea for more definite laws in the other States and especially laws which will protect workers in such occupations as laundries, telephone exchanges, canneries, restaurants, candy stores, ice cream saloons and department stores.

LINTLESS COTTON PLANT.

Government Expert Claims to Have Achieved Important Success.

Bullochsville, Ga., June 9.—J. J. Stranahan, superintendent of the Cold Springs Station of the United States Department of Fisheries at this place, has perfected, he says, through experiments carried on for the past four years, a practically lintless cotton plant.

The purpose of his experiments in this line is to secure a larger plant bearing bolls filled with larger seed which will be much richer in oil than the regular plant.

In the course of ten years Mr. Stanahan expects to produce a cotton plant that will yield 100 bushels of clean seed to the acre.

Atlanta, Ga., June 9.—Ten thousand dollars was the value placed on a hog by a jury in the Superior Court here today in the case of J. D. DeBow, of Nashville, Tenn., against the Vicksburg, Shreveport & Pacific Railroad. The hog in question was "Premier Longfellow's Rival," a pedigreed porker who was killed in a railroad accident and on which Mr. DeBow had such a valuation of $20,000. The animal was nine feet long, three feet high and weighed more than 1,000 pounds.

PLEA FOR HIGHER TAX ON TOBACCO

Government Losing Millions That Could be Collected Says Congressman.

WOOL TARIFF UNDER ATTACK

Against High Duties on Woolen Goods —Newly Elected Republican From Washington Held the Floor — Features.

Washington, June 9.—Representative Warburton, of Washington, a newly elected Republican insurgent in the House of Representatives, charged Congress today with letting millions of dollars go to waste that it might collect in internal revenue taxes on tobacco. He attacked the pending wool tariff revision offered by the Democrats, declaring that their plea of needing revenue for the government treasury was not a serious argument for keeping high duties on woolen goods.

"If the government would put a reasonable tax on tobacco, which may be considered a luxury," said Mr. Warburton, "it could let in woolen goods, cotton goods and sugar without any tariff whatever. If this country taxed tobacco as England or France does, we could close the doors of all the customs houses, except as to the importations of liquors and tobaccos."

Mr. Warburton said the Democrats had been afraid to reduce the duties on wool any further, for fear of the consequences at the next election if the woolen industry was prostrated by the removal of protection. He said the Democrats had been compelled to adopt the Republican doctrine of protection, and excused themselves on the ground of needing revenue.

"And in the meantime," said Mr. Warburton, "American people are paying six times as much tax to the government on sugar as they are on five cent cigars; twelve times as much on sugar as on ten cent cigars; 30 times as much on sugar as on 25 cent cigars and 60 times as much on sugar as on 50 cent cigars. The rich man who smokes a 35 cent cigar pays one and two-tenths cents tax on each dollar's worth of them; while his gardner who smokes five cent cigars pays 6 cents tax on his dollar's worth; and his washer woman who buys a dollar's worth of sugar pays 36 cents tax on it.

Representative Peters, of Massachusetts, a Democratic member of the Ways and Means Committee which framed the wool bill, said wool and woolen goods would have been made free, but for the necessity of raising revenue. He said the duties had been placed as low as was consistent with securing enough tariff revenue to run the government.

NOT "RICH MAN'S COLLEGE."

President Lowell, of Harvard, Spoke at Convention.

Minneapolis, Minn., June 9.—Harvard University is not a "rich man's college" and does not abet dissipation, according to an address made today by President Lawrence Lowell, of Harvard, before the Associated Harvard Club's convention.

"Harvard is not run for the fast man in college," said President Lowell. "I speak with authority when I say this, for I know the leaders in the various classes in the college and university. They are not dissipated. There are some dissipated men in the University, but that is natural in any large institution. They are not the men who give the tone to the college. Every man in the University has an equal chance and this condition has been brought about by the initiative of the students. It is well known that Harvard is full of poor men, and the students have abolished anything like a breach between the rich and poor."

FIRE IN OIL PLANT.

Smouldering Blaze Gives Raleigh Firemen Bay Day's Work.

Raleigh, N. C., June 9.—The Raleigh fire department has been fighting a slow smouldering fire in the plant of the North Carolina Cotton Oil Co., here all the forenoon and have as yet failed to reach the real seat of fire. Practically no flames have developed but at times volumes of smoke pour from places. Just now the firemen are unroofing a section of a building in expectation of reaching the fire between the rafters and joists. A big bed of smouldering fire was found and extinguished in the basement close by the engine room. There seems now to be little prospects of the fire breaking out seriously again unless it eats its way to some of the oil tanks.

Lovers of Music.

Don't miss the concerts at Lumina tomorrow. Both afternoon and night concerts will be very fine. Among the numbers to be rendered are: Grand March from "Aida," selections from "Bohemian Girl," "Faust" selections, "Love song of olden days," etc. **

COTTON HAS A VARIED WEEK

Sharp Advance Followed by Set Back on Heavy and Persistent Liquidation—Dullness in South —General Conditions.

New York, June 9.—Cotton advanced sharply for a time on hot dry weather at the South, coverings of shorts and bullish manipulation. Then came a set back on heavy and persistent liquidation of July attributed to leading New York and New Orleans bulls and their following. Also beneficial rains were reported in the Carolinas, Georgia and Alabama. Still on Friday, prices advanced again on dry hot weather in Texas and elsewhere.

Liverpool's spot trade has continued small and at the South the demand for the actual cotton is said to have fallen off so noticeably that the dullness neutralizes the effect of a strong statistical situation. Moreover, many believe that despite the recent hot dry weather the crop is doing well, that it needed a period of high temperatures after the cold weather of May, and dry weather has thus far done no widespread harm. The cotton goods trade, too, is still unsatisfactory. Curtailment continues. Speculation in futures has been as a rule on a small scale. It is largely a professional market subject to manipulation, a market which disconcerts some of the most experienced members of the trade. On the otner hand, if big bull operators have been throwing July over board they are credited with buying October and December and January on a liberal scale. A well known Texas operator, who has been here for about two years, is understood to be very bullish on the new crop months at the prevailing discounts. There can be no certainty as to what the size of the crop is to be. The acreage is unprecedentedly large and the recent government report thought favorable, merely recalls to bulls the fact that there has been in the past a falling off from the June condition by October of no less than 37 per cent. They add that a "bumper" crop is absolutely necessary to replenish the world's supplies, and, failing that, prices must go very much higher. On Friday continued hot, dry weather and aggressive buying by operators, who have been very successful this season in the old crop months caused a sharp advance despite the fact that the Carolinas, Georgia and Alabama of late have had beneficial rains. Attention is fixed on Texas which is dry.

HOT WAVE IN MIDDLEWEST.

Temperature Reached 100 at Omaha —Still Warm in South.

Washington, June 9.—Stealing eastward from a sizzling belt that today stretched over the middlewest is a hot wave that threatens to make temperatures soar all along the line as far as New England tomorrow. It kept Weather Bureau Forecaster Frankenfield busy tonight hanging record scores. At Keokuk, 11, was high water mark for the season. So was 100 at Omaha and the same report rolled in from points in Illinois. All through an area that embraced Iowa, Illinois, Nebraska, Missouri and Kansas the temperature touched or broke records with temperatures from 96 to 100, including 98 at Chicago, official, and the official figures are much more comfortable than the thermometer in the downtown streets of sweltering cities. In the South the heat continued today and is warming up in the East, states in this section marking up 84 and upwards today with advancement promised tomorrow.

CHAMP CLARK INVITED.

Speaker of House Wanted at Guilford Battle Ground.

(Special Star Telegram.)

Washington, D. C., June 9.—At the instance of Paul Schenck, of Greensboro, Senator Overman invited Champ Clark to speak at Guilford Battle Ground July 4th, but the invitation was declined for the reason that Mr. Clark had made a previous engagement. H. E. C. B.

OUTLINES.

The first clash between the House Committee investigating the steel trust and attorneys for the corporation resulted during the taking of testimony yesterday —— Congressman Warburton, of Washington, declared in the House yesterday that millions of dollars are going to waste that could be collected in internal revenue in taxes on tobacco. He made an attack on the wool tariff——Yesterday was the hottest day in 40 years in Chicago. The heat wave which has recently spread over various sections of the country was felt in the Middlewest, where the themometer went as high as 100 degrees —— Herr Schendel, well known German aviator and his mechanic, were both killed yesterday, when an accident occurred to the machine while they were trying for an altitude record——New York markets: Money on call steady 2 1-4 to 21-2 per cent., ruling rate 2 1-4, closing bid 2 3-8, offered at 2 1-2; spot cotton closed quiet five points higher, middling uplands 15.90, middling gulf 16.15; flour was quiet with prices steady and without change; wheat irregular, No. 2 red 97 3-4 elevator and 98 3-4 fob afloat; corn spot firmer, export new No. 2, 62 1-2 fob afloat; oats firmer, standard white 44 1-2; turpentine easy.

THE FIRST CLASH AT STEEL PROBE

House Committee and Attorneys for Corporation Having Warm Time.

SOME INQUIRY AS TO MORGAN

"Gary Dinners" Also a Feature for Investigation—Roberts and Gayley Under Fire Throughout Sessions.

Washington, June 9—The first clash between the House Committee of Inquiry into the United States Steel Corporation affairs and counsel for that combination, R. V. Lindabury, occurred today when Percival Roberts, Jr., a director, was under examination. Mr. Roberts and former Vice President James Gayley, of the corporation, were today's witnesses, both testifying that agreements as to parceling of the output were made between steel manufacturers before the steel corporation was formed.

The committee today sought to show that through the "Gary dinners" the price of steel products were maintained and competition curtailed—as effectively as they were prior to the steel corporation formation—by gentlemen's agreements made despite the Sherman anti-trust law.

"Was it the same spirit of philanthropy that guided independent steel manufacturers to make agreements before the organization of the United States Steel Corporation?" Representative Raell, of Texas, asked Director Roberts, "as prompted the steel corporation to save the nation in 1907 by taking over the Tennessee Coal & Iron Company?"

Mr. Roberts was replying that he did not believe philanthropy entered into business when Attorney Lindabury protested against the question.

"I submit," said Mr. Lindabury, "that arguments between the questioner and the witness are unseemly."

The former question was modified and Mr. Roberts answered that since the formation of the steel corporation business men in this country had new ideals which governed them to avert destructive competition.

"I believe," he said, "that through the Gary dinners men in the steel business have accomplished great results for the benefit of all by the application of good common American sense. Example has a great deal to do with the affairs of this world."

Had Morgan in Mind.

With J. Pierpont Morgan in mind, though not mentioning him by name, Chairman Stanley asked:

"Is there in the financial world today a man of infinite power and vast interests whose example is regarded in a way as the law by big business men?"

"No," replied Mr. Roberts. "I think there are certain new ideals of co-operation which govern us all, ideals that may be personified in certain individuals."

"Is there such an individual in America?" asked Mr. Stanley.

"Yes, I think so."

"Where does he reside?"

"I think his name is legion. At least that is the hope for the future of this country. If we destroy individualism we surely will get into trouble."

"Who is the example in the steel industry?"

"I think no one man particularly."

"Is there not one man," Mr. Stanley continued, "whose example business men of the nation follow, on account of his immense grasp of modern conditions, his touch which potentiates the railroads of the nation, the steel manufacturing business, the establishment of banks and extends to all the multifarious ramifications of business of the country, who cannot only frame business conditions, but change them by the mere press of a button?"

"I suppose I have in mind who you mean," Mr. Roberts answered smilingly, "whatever he may accomplish for the good of the government and upholding the business interests of the country he does by reason of his qualities and his ideals. It is not because of his personality and name. It is the ideal which he represents that makes the country what it is." The committee will resume its inquiry next Tuesday.

May Summon Morgan.

Many inquiries are reaching the committee as to when Mr. Morgan is to be summoned as a witness. Chairman Stanley and other members declined to commit themselves, but it is reported Mr. Morgan will be subpoenaed and asked many questions relating to his interests in the steel and railroad business, his banking connections and influences and his part in the organization of the United States Steel Corporation and its absorption of the Tennessee Coal & Iron Company during the 1907 panic.

Decatur, Ala., June 9.—Incensed by the alleged unfair decisions of Umpire Sorber in the game with Selma of the Southeastern League today, a mob of several hundred fans attempted to lynch Sorber. Cooler heads prevented the umpire's death.

FIRST VIOLENCE OF STRIKE

One Man Shot and Others Injured During Rioting in Cleveland Yesterday—Trouble With the Garment Workers.

Cleveland, Ohio, June 9.—One hundred policemen summoned to the scene of a riot between striking garment workers and sympathizers and non-union workmen late today, charged on the rioters and in the fight that followed one man was shot and at least a half a dozen seriously injured. Scores suffered battered heads and body bruises.

It was the first violence of the strike. About 600 men and women gathered in front of Printz Biederman & Company's branch factory on West 25th street, as the non-union workmen were about to leave the building. A brick hurled into the crowd by an unknown person started the riot. When the police arrived the strikers and non-union men were hurling bricks, clubs and stones. Windows in nearby stores were smashed. When the police charged, the mob resisted.

Patrolman John Becker was struck on the head and he drew his revelver and shot Roselli Doloungo, a striker, in the thigh. Among the serious hurt were Patrolman John Sammar and Isaac Cohen and Isadore Benjamin, who were beaten by the policemen. Another man received a gash in the throat. Doloungo was placed under arrest after being taken to a hospital.

STATE TEXT BOOKS.

Rules That Govern Hearing Before Commission at Raleigh.

(Special Star Correspondence.)

Raleigh, N. C., June 9.—The hearing of the book men on the merits of the books they offer for adoption is in full swing now before the State text book commission and sub-commission, the hours daily being 10 A. M. to 2 P. M., Saturday excepted, until all are heard. The commission has prescribed the order of subjects to be heard and the time allowed to representatives of each publisher on each text book subject, but leaves to the book men the settlement by lot of the order in which they appear before the commission.

An iron clad regulation is adopted that there shall be no personal communication upon the subjects of text books between any bidder or his representative or any person interested in text book adoption and any member of the text book commission or sub-commission. Each bidder is to file with the commission an affidavit setting forth the names of the persons in this State representing the concern directly or indirectly. Proper communications in the form of briefs and testimonials from bidders can be communicated to the commission through the secretary of the sub-commission before July 1st, 13 copies to be submitted. The members of the commission and sub-commission are obligated not to express an opinion concerning the merits, demerits or adoption of any text book offered for adoption to any one other than to members of the commission and sub-commission until after the adoption has been made, this to be August 3rd.

The sub-text book commission has organized for its work by the election of N. W. Walker chairman and Z. V. Judd secretary. All representatives of book publishers are to meet with the sub-commission Saturday morning to decide by lot the order in which they shall appear before the commission to present the merits of their books offered for adoption.

FEW APPLICANTS FOR NAVY.

War Department Distressed Over Vacancies in Many Districts.

Washington, June 9.—With the special examination of candidates for appointment this year to the United States Military Academy less than a month distant, the War Department is distressed over the absence of any applicants for 40 vacancies in Congressional and Senatorial districts. In addition there are nearly 100 vacancies with no applicants in the class to enter in 1912.

The examination for this year's appointments will be held July 5th and the War Department today made public the following list of congressional and senatorial districts for whom no candidates have been named:

Alabama 3rd; Arkansas 2nd, 3rd, 7th; Louisiana, 3rd, 4th, 7th; North Carolina 2nd, 5th, 7th; Mississippi, Senator Percy, 1st, 3rd, 4th, 5th, 6th, 8th; Tennessee 1st; Texas. 2nd.

MATTAMUSKEET ROAD.

New York Capitalists Will Complete Line to Washington, N. C.

Raleigh, N. C., June 9.—Mr. Gilbert L. Gilbert, of New York, representing New York capitalists, today made an offer to the State to build the Mattamuskeet Railroad to extend 105 miles from Lake Mattamuskeet, in Hyde county, to Washington, N. C. The State owns a controlling interest, part of the road being already graded and the proposition was accepted subject to rights of way, terminals and dock facilities being secured by the people along the route.

Ada, Ohio, June 9.—Henry Clews, the New York banker, has been honored by Ohio Northern University with a degree of doctor of philosophy.

MRS. NATION DIES AFTER AN ILLNESS

Kansas Saloon Smasher Passes Away in Leavenworth Sanitarium.

FOUGHT BOLDLY TO THE END

Worry Over Law Suits Caused Her Breakdown—Noted for Her Deeds of Bravery in Fighting Whiskey.

Leavenworth, Kans., June 9.—Carrie Nation, the Kansas saloon smasher, died here tonight.

Paresis was the cause of her death. For several months Mrs. Nation had suffered of nervous disorders, and on January 22nd she entered the sanitarium in which she died.

Carrie Moore was born in Kentucky in 1846. In early life she married a man addicted to intoxicants. This created in her an intense aversion to saloons. When he died she determined to devote her life to the suppression of bar rooms. Later she removed to Kansas and married David Nation, who sympathized with her temperance principles. After considerable peaceful labor to stop drinking of alcoholic beverages she decided to become militant.

Mrs. Nation's first saloon smashing was done in the bar room of the Carey Hotel at Wichita, Kans., December 27th, 1900. She remained in jail several days as a result. On January 21, 1907, armed with her favorite weapon, a hatchet, Mrs. Nation made another attack in Wichita. This time she smashed two saloons.

During the next three months Mrs. Nation surprised liquor sellers in various Kansas towns, appearing unheralded and leaving a trail of ruined bar room fixtures wherever she went. Few saloonists used violence in resisting Mrs. Nation, although she was assaulted and hurt while wrecking a place at Enterprise, Kans.

Aroused by the acts of the dauntless woman, the people of Kansas began to demand that all saloons be closed. Smashing parties were organized all over the State. As a result of agitation, bills were passed by the Legislature strengthening the prohibitory law.

Mrs. Nation, after her activities in Kansas, became a lecturer and the editor of a paper called the Smashers' Mail. She did little smashing outside of Kansas. While lecturing in New York City she created excitement by appearing at a horse show in Madison Square Garden demanding that the occupants of the Vanderbilt contribute money for a home for drunkards' wives, founded by her in Kansas City, Kans.

Mrs. Nation made herself conspicuous in many cities by entering saloons and resorts and delivering talks on the evils of drinking.

The physician at the sanitarium informed Mrs. Nation several days ago that the end was near. She said nothing but smiled. She became unconscious at noon today, and did not revive. Relatives had been telegraphed for, but only the doctor and a nurse were at her bedside when she died.

Worry over law suits, which she brought against a lecture bureau for failure to pay for services, is said to have caused her breakdown.

The last five months of Mrs. Nation's life was in marked contrast to her former activity. Once she saw a physician at the sanitarium smoking a cigarette. She made no remonstrance, merely saying that she had done what she could to "eradicate the evil."

The body will be sent to Kansas City, where a nephew lives. Funeral services will be held there probably on Sunday.

CHICAGO FEELS HEAT.

Hottest June Day in 40 Years—Almost Reached 100.

Chicago, June 9.—There has never before been a June day in Chicago as hot as today in the 40 years during which a temperature record has been kept. The hot wave arrived about 10 o'clock today, after a cool night, and the temeprature rose steadily until 4:30, when 98.5 degrees were registered by the official thermometer on the tower of the Federal building.

The government street thermometer registered three degrees higher, making the street temperature well over 100 degrees.

Th mercury hovered at its high point for half an hour, and then began to drop and by 8 o'clock at night stood at 93 degrees. The heated area extended over the territory 500 miles south and west of Chicago.

Numerous prostrations were reported in Chicago, but the police received no reports of death due to heat. Mrs. Susan Miller, wife of an attorney, was drowned in Lake Michigan while seeking relief from the heat.

Even warmer weather is predicted by the government bureau for tomorrow.

The Hague, June 9.—Andrew Carnegie, it was announced here today, had donated 500,000 florins (about $205,000) for the establishment of a hero fund in Holland.

St. Louis	16	32	.333

Boston, June 9.—Five runs in the first inning, when Collins was driven from the box won for St. Louis from Boston's new line-up today 5 to 4. Boston's rally in the ninth was stopped with the bases full. The fielding of Wallace and batting of Purtell were the features.

Boston .....000 100 102—4 10 1
St. Louis .....500 000 000—5 8 0

Collins and Pape; Nunemaker and Kleinow; Mitchell, Clark and Krichell; time 2:05; umpires Connolly and O'Loughlin.

Washington, June 9.—Cy Young pitched his first game of the season against Washington today and Cleveland won 5 to 2. Young allowed but five hits, while Groom was driven from the rubber, Hughes taking his place and doing well.

Washington ....200 000 000—2 5 3
Cleveland .....200 020 000—5 12 2

Groom, Hughes and Street; Young and Smith; umpires Dineen and Perrine; time 1:35.

New York, June 9.—The Highlanders turned the tables on the Chicago White Sox today, winning 9 to 2 in a game featured by the home team's heavy hitting. Baker, Chicago's first twirler, did not last out the first inning, as three out of the four men who faced him hit the ball safely.

Chicago .....011 000 000—2 7 4
New York .....422 010 00x—9 15 4

Baker and Scott and Paines; Fisher and Quinn and Blair; time 1:58; umpires Mullen and Evans.

Philadelphia, June 9.—Philadelphia defeated Detroit today 5 to 4 in a contest which was filled with exciting plays and which closed with two men on the bases when Collins made a running one-hand stop of Cobb's grounder and threw the batsman out. The run which won the game was made by Barry in the eighth inning when he stole home. Stanage had his finger hurt in the first inning and was forced to leave the game.

Detroit .....001 020 001—4 11 2
Philadelphia ....002 010 11x—5 9 0

Mullin, Casey and Stanage; Krause and Thomas; time 2:05; umpires Egan and Sheridan.

PRELIMINARY MEETING.

Southern Conference of Y. W. C. A. Begins Sessions in Asheville.

Asheville, N. C., June 9.—The Southern Conference of the Y. W. C. A., which will be in session for ten days in this city, held its preliminary meeting tonight, with 300 delegates from nearly every Southern State present. Miss Mary L. Allen, of New York, secretary of the National Board, presided, and in an address said that the conferences had done much for the uplifting of Southern young womanhood, and had been largely instrumental in placing the individual associations of the South on a firm basis.

NASHVILLE GOLF EVENTS.

Southern Champion Will Probably be Known Today.

Nashville, Tenn., June 9.—Either R. G. Bush or W. P. Stewart, of New Orleans, will be the champion of the Southern Golf Association, the former winning in the semi-finals today from R. H. Paugh, Birmingham, by a score of one up, match play, the latter beating C. W. Daly, the Nashville champion 6 to 4. Lindsay, Nashville, won the handicap prize today with a net score of 69, Robin Cooper taking second prize with a net score of 70.

THE MEXICAN QUAKE.

Number of Victims Yet Unknown—150 Killed.

Mexico City, Mex., June 9.—Because of the lack of telegraphic facilities and slowness with which the officials of villages in outlying districts make reports to the government, it is not improbable months may pass before an accurate statement of the number of earthquake victims is known.

The list of known dead total a few more than 150. It is possible a few more may augment somewhere, but neither government officers nor newspapers believe it will exceed 350, notwithstanding some rumors placed the number at more than 1,000.

Special dispatches indicate that the greatest loss of life was near the West coast, in Colima and Jalisco, and although no deaths are reported from Guadalajara, the capital of Jalisco, according to latest reports there were not more than five or six killed in the capital of Colima.

Tonala and San Andres, near Colima, were almost destroyed, according to reports. No estimate of the loss of life has been given, but it is stated most of the residents, frightened by hardest shock, fled from their little houses to safety.

A dispatch from Tuxpan reports Ula suffered greatly, and that the number of dead would reach probably forty. About the same number was reported from Seapotlan.

The first accurate news of the earthquake's effects in Colima was brought to Tuxpan by a merchant.

GIRL'S STORIES CONFLICTING.

Each Claims to Have Fired on Millionaire Hotel Man.

New York, June 9.—Prosecution of the two women who shot W. E. D. Stokes, the millionaire proprietor of the Hotel Ansonia, will be begun as soon as Mr. Stokes' condition enables him to appear against them. His attorney reiterates this statement today in reply to rumors that the case might be dropped.

At the hospital Mr. Stokes was reported as improving. It will be several days, however, before he is past the danger of blood poisoning. Mean while the women accused, Miss Lillian Graham and Miss Ethel Conrad, will be held to await examination.

At the present the police are some what at sea owing to the conflicting stories told by the principals in Wednesday night's shooting. Each young woman insisted that she alone fired the shots that struck Stokes.

Miss Conrad says the wounded man came to their apartment looking for her. Miss Graham says that she had engaged a lawyer several days ago to sue the millionaire for defamation of character.

ST. MARY'S CONFERENCE.

Third and Last Day's Sessions in Raleigh Yesterday.

Raleigh, N. C., June 9.—The third day of St. Mary's Conference for Clergymen and Laity was as full of interest as the preceding ones, matters of deep interest to both the laity and the clergy being presented in the addresses of the morning.

As usual, the day began with the holy communion at 9:30 A. M., prayers being held in the chapel at 9 A. M.

The addresses of the morning were: "Reaching and Teaching Boys," by Rev. F. J. Mallett, of Salisbury; "The Scholar; the Process of His Growth," the third in the series on the Sunday school, by Rev. L. N. Caley, of Philadelphia; and the address by Mr. Eugene M. Camp, of New York, on "The Churches and World Peace."

The addresses during the whole conference have been remarkably presented, full of new and helpful thought and information from men who are specially able to handle each subject.

Albuquqrqu, N. M., June 9.—Engineer A. W. Green was killed and twenty others injured today when the westbound California limited on the Atchison, Topeka & Sante Fe railroad collided at high speed with a light locomotive near Domingo, N. M. All the injured will recover, it is said.

THE 'FRISCO MURDER.

French Maid Declares Doesn't Know Why She Shot Employer.

San Francisco, June 9.—The condition of C. Frederick Kohl, prominent capitalist and clubman, who was shot and dangerously wounded yesterday by Adele Verge, a French maid, formerly in the employ of Mrs. Kohl, was slightly improved today. Kohl rested easily last night and it is thought he may recover. An effort to locate the bullet lodged in his breast by X-ray examination will be made today.

Adee Verge spent the night at the city prison in incoherent prayer for the recovery of her victim. Hysterical and unnerved, she would only say in reply to questions that she did not know why she shot Kohl and did not want him to die. She declared she had bought the pistol from which the shots were fired many months ago, as a protection against the detective she says Kohl and Frank Miller hired to persecute her.

Kohl is well known throughout Eastern cities, because of his financial connections and social affiliations.

His first wife was Miss Edith Dunlap, of Philadelphia, who was married to him in 1896, and who died in New York following an operation for appendicitis in 1901.

SUCCEEDS MR. NOE.

Tampa, Fla., Rector Called to Parish in Charleston, S. C.

Charleston, S. C., June 9.—The Rev. Arthur Temple Cornwell, until recently rector of the Church of the Holy Innocents, at Key West, Fla., has accepted a call of the vestry of St. Paul's church, Radcliffeboro, to the rectorship of that parish, and will assume charge at once, holding his first service as rector on Sunday morning next.

Mr. Cornwell has been heard in Charleston, having preached at St. Paul's church several weeks ago. He is a very strong preacher and an active minister. He is a comparatively young man and has held a successful mission at Key West, after serving his diaconate at Braden Town, Fla. Mr. Cornwell's family will join him in Charleston within a few weeks, and make their home at St. Paul's rectory at Ashley and Cannon streets.

St. Paul's church has been without a rector since the first of May, when the Rev. Walter R. Noe left to assume the rectorship of a church in North Carolina.

TRINITY'S GREAT WEALTH.

Church Corporation at New York is Worth All of $13,700,000.

New York, June 9.—The annual report of Trinity Church Corporation shows that the receipts for the parish for the past year were $865,000, the largest item being $750,000 from real estate rents. New rents were $16,000.

The parish spent $950,000 for new buildings, $340,000 for the maintenance of its ten churches and eleven schools and $157,000 for taxes. The report records a considerable deficit for the year.

Trinity's balance sheet snows that the parish now owns productive property assessed at $13,700,000. These figures do not include the property used for churches, chapels, schools and burying grounds.

The number of communicants reported is 8,600, a slight increase. "Church attendance throughout the parish," says the report, "has shown no falling off, but on the contrary, most of the churches show a marked increase."

MARKET UNAFFECTED.

Failure of Bank in England Creates Little Disturbance.

London, June 9.—The stock exchange was practically unaffected today by the suspension of the Birkbeck Bank in High Holbert yesterday, with total liabilities of $43,380,910.

Consols opened at from 1-8 to 1-4 lower than yesterday, but quickly recovered to yesterday's close. Small knots of anxious depositors had gathered about the bank since daybreak, but the crowd, when at its largest, was probably less than 1,000 persons.

Pathetic scenes were witnessed in the neighborhood of the suspended institution all day. Many of the depositors were elderly men and women whose life savings were behind the closed doors.

An authoritative statement given out by the directors to the effect that the bulk of the deposits are amply secured had a reassuring effect and it is the general opinion in the city that the suspension will not be such a disaster as at first was feared.

LORIMER INVESTIGATION BEGINS

Committee May Meet Today and Proceed to Probe.

Washington, June 7.—The personnel of the new Lorimer election investigating committee—bi-partisan and bi-Lorimer—was formally approved by the Senate today and the eight senators selected from the regular standings Elections Committee, but vested with full fledged committee powers, charged with the re-investigation of the allegations of bribery in connection with the election of the Illinois senator, will immediately begin their task. While no time has been fixed, it is possible the committee will meet tomorrow to organize and arrange the first steps.

GIVEN DAMAGES FOR $17,500.

Kentuckian Killed on Street Car Line —Estate Getting Verdict.

Seattle, June 9.—The estate of Judge W. C. Bell, of Harrodsburg, Ky., has been awarded $17,500 damages against the Seattle, Renton and Southern Railway Company, by a jury in the Superior Court.

Judge Bell was killed in a street car accident on the company's line last year. Mrs. Bell died of injuries received in the accident and a suit in her case is pending. The heir is an eighteen-year-old son.

ROOSEVELT NOT FOR TAFT.

Declares Report a Lie Out of Whole Cloth.

Springfield, Mass., June 7.—Colonel Theodore Roosevelt said today with reference to a published story that he would support Taft in next Presidential campaign:

"There is no truth in the report that I have agreed to support any man for President in 1912. I have neither made any such statement nor even discussed the matter. The story is made out of the whole cloth."

Col. Roosevelt passed through this city this afternoon on his way to White River Junction, Vt., where he spoke tonight.

SOUTHERN PUBLISHERS ASKED.

New Orleans Wants to Entertain the Convention Next Year.

New Orleans, June 9.—The Southern Newspaper Publishers' Association will be invited to hold its 1912 convention in New Orleans and a formal request to that effect will be presented to its annual meeting to be held in Louisville on June 14th.

In inviting the leading newspapers of the South to meet here next year, a "side trip to Panama" is suggested.

TRAFFIC AND FREIGHT AGENTS.

Hundred Southern Railway Men Are Meeting at Chattanooga.

Chattanooga, Tenn., June 9.—The traffic and freight agents of the Southern Railway, about 100 in number, met here today for their annual sessions. R. L. McKellar, of Louisville, assistant freight traffic manager, and E. H. Shaw, of Atlanta, are presiding.

The conference is for the discussion of internal matters and hearing reports of the past year. The sessions are behind closed doors.

RETURNS TO THE WHITE HOUSE.

President Gets Back to Capital After Visit to New York.

Washington, June 9.—President Taft arrived from New York this morning. Secretary Hilles did not accompany him, having gone from New York to Dublin, N. H., for a week's stay with Secretary of the Treasury MacVeagh at the latter's country home.

FORMING BELGIN CABINET.

De Broqueville Accepts Commission to Organize Ministers.

Brussels, June 9.—M. De Broqueville, minister of railroads, posts and telegraphs today accepted the commission to form a new cabinet in succession to the Schollaert ministry, which resigned yesterday in consequence of difficulties over the ministerial school bill pending in Parliament.

MIDDIES OFF FOR CRUISE.

Six Hundred From Lower Class for Foreign Trip.

Annapolis, Md., June 3.—Six hundred midshipmen of the lower classes today went aboard the battleships Iowa, Massachusetts and Indiana preparatory to leaving early Monday morning on a practice cruise to foreign ports. The itinerary is as follows:

The ads will show you whether or not there's a chance today to buy that piece of furniture at your price.

PROBING COAL COMBINE.

Federal Grand Jurors at Pittsburg Continuing Investigation.

Pittsburg, June 9. — The Federal grand jury today continued its investigation into the affairs of the Pittsburg Coal Company and the Monongahela River Consolidated Coal and Coke Company, relative to the transfer of coal and coking properties, valued at $17,800,000 to the H. C. Frick Coke Company, a subsidiary of the United States Steel Corporation to ascertain whether there has been any attempt to create a monopoly in the coking industry.

The transfer negotiations were officially approved late yesterday, notwithstanding the fact that the government probe had started by the hurried re-assembling of the May grand jury.

E. J. Taylor, chief engineer of the Pittsburg Coal Company, who was before the grand jury when adjournment was taken late yesterday, was the first witness called today. He is likely to testify to the location of the coal concerned in the deal and to the supply of coking coal in the Pittsburg district.

SEIZED BY OFFICERS.

Oriental Jewelry and Embroideries Taken from Japanese Liner.

San Francisco, June 9.—Oriental jewelry and embroideries valued at between $15,0 and $20,0 0 were seized by customs officers on the Japanese liner Tenyo Maru, which arrived yesterday.

Tong Lee and Fong Thung Quong, two Chinese who are said to have attempted to smuggle the goods from the steamer were arrested.

"Supper Ready"

When you get back to camp, tired and hungry, you do not want to spend the evening getting supper ready. You want a stove you can start up in a minute—that will cook quickly and well.

For camp, houseboat or bungalow, a New Perfection Oil Cook-stove is the ideal cooking device. It is ready for use in a moment. It saves all the trouble of cutting wood and getting in coal. It does not overheat or make dirt in a kitchen; there are no ashes nor smoke. It requires less attention and cooks better than any other range.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the

TEXACO ROOFING

is made of solid, extra heavy, first quality, wool felt, thoroughly saturated with Texaco Bitumen, over 99 per cent pure, and afterward finished with an extra heavy coating of the same material.

TEXACO BITUMEN—over 99 per cent pure — possesses great fire-resisting properties, is not oxidized by the action of the elements, is impervious to the action of acids, fumes and gases, is not injured by the extremes of heat and cold, and remains adhesive and pliable.

The weakest point of ready roofing is at the lap, due to the disintegration and hardening of the cement used, but Texaco Roofing Cement, made of bitumen over 99 per cent pure, insures a permanent waterproof lap.

The principal merits of TEXACO ROOFING are:
ECONOMY of first cost and application.
SIMPLICITY and ease of application.
PERFECTION of weather and water-resisting qualities.
MAXIMUM of strength and durability.
FIRE-RESISTING.
PLIABILITY and immunity from injury by extremes of temperature; and, last but not least,
A PERMANENT LAP, by use of Texaco Roofing Cement, which gives security, strength and waterproofing at the weakest point of a roof.

STATE TEXT BOOK COMMISSION

Bidders Being Heard in Raleigh—Hookworm Campaign—Several Charters—Proposed New Court House.

(Special Star Correspondence.)

Raleigh, N. C., June 9.—The State Text Book Commission and the sub-commission of six educators in joint session today began the hearing of book men on the merits of the books they are offering for adoption. This will require several days and as soon as all are heard the sub-commission will take up the work of examining the books with a view to reporting to the full commission in time for adoption August 3rd.

Rigid rules regulating the hearing of the book men have been adopted and there will be no further hearings after those now in progress are all in. Thereafter there can only be formal petitions and briefs to the commission through the secretary in the event that there are special developments giving rise to further presentation of facts of conditions. The book concerns and the subjects the books they offer for adoption treat follow:

The Bobbs-Merrill Co., government, reading.

W. H. Wheeler & Co., reading.

Prang Educational Co., art education.

Little Brown & Co., reading, Boston School kitchin book.

Chas. E. Merrill Co. reading, writing spelling, English, hygiene.

Houghton-Miffin Co., spelling, English, history, reading.

Newsome & Co., English, reading.

Ginn & Co., geography, writing, spelling, reading, arithmetic, hygiene, history, agriculture, English.

Rand McNally & Co., geography, reading, business methods, spelling, English, history.

American Book Co., geography, writing, distionary, history, reading, English, hygiene, arithmetic civil government, agriculture, spelling.

B. F. Johnson Co., writing, reading, spelling, arithmetic, agriculture, civil government, history, grammar.

D. C. Heath & Co., writing, reading, grammar, arithmetic, history, civil government, agriculture.

B. D. Berry & Co., writing.

Chas. Scribner's Sons, arithmetic, reading, hygiene, language, geography and civil government.

Dr. Jno. A. Farrell, in charge of the campaign against hookworm in this State, says that the operation of the hospital tent for the treatment of hookworm patients is to start within a very short time now in one of the Southeastern counties. There will also be in the same section of the State a number hookworm dispensaries provided in counties that will cooperate by bearing a small part of the expense. Among the first work of this sort is expected to begin in Pender county, the commissioners having already pledged financial aid. Examinations and free treatment are to be provided and especially strenuous campaigns for stamping out hookworm disease carried on.

The Pritchard-Bright Co., of Durham, is chartered with $35,000 capital subscribed by J. J. Pritchard, J. W. Bright and others. Other notable charters are to the Long-Winston Co., Oxford, capital $5,000 by J. W. Long and others for stock and machinery, and the Standard Realty Co., Greensboro, capital $100,000, by C. C. McLean and others.

A charter is issued for The City Grocery Co., of Wilmington, capital $5,000 authorized and $4,000 subscribed by J. W. Cooper, J. N. Valentine and others. There is also an amendment for the charter of The Globe Veneer Co., Winston-Salem, changing the name to The Sheppard Veneer Co. B. J. Sheppard is president of the corporation.

There is considerable interest developing here and throughout the county in a proposed new Court House, the present Wake court house being out of date and very inadequate. An idea that seems to be meeting hearty approval, especially among the lawyers in Raleigh, is the idea of a twin building with court room and county offices and all other apartments that a well designed court house would include and on the other a modern law building equipped especially as offices for lawyers. In this way it is argued that the building would really prove a revenue producer as well as especially convenient for the courts and the lawyers and the general public.

Work Will Soon Start

after you take Dr. King's New Life Pills, and you'll quickly enjoy their fine results. Constipation and indigestion vanish and fine appetite returns. They regulate stomach, liver and bowels and impart new strength and energy to the whole system. Try them. Only 25c. at R. R. Bellamy's.

Just the Place.

To rest, cool off and at the same time see a fine show—Grand Theatre. ••

WELDON NEWS NOTES.

Social and Personal Items of Interest Generally—Rabid Dog.

(Special Star Correspondence.)

Weldon, N. C., June 9.—Miss Narcissus, Daniel, the eleven-year-old daughter of Mr. and Mrs. W. E. Daniel, was bitten by a vicious and worthless dog last Friday. Mr. Daniel had the head of the dog shipped to Dr. Shore, at Raleigh, as a matter of precaution. Dr. Shore after an examination of the dog's head decided that it was affected with rabies and so wired Mr. Daniel. Miss Daniel was then taken to Raleigh for treatment.

Miss Jennie Tilghman left Wednesday to visit relatives and friends in Richmond and Newport News, Va.——Roger G. Lewis, of Littleton, who has been traveling in China and Japan, spent a day or two here with Mr. and Mrs. John W. Steiles——Prof. Howard Bounds has been elected principal of the High School at Thomasville, Ga., and will accept.

Mr. J. T. Hawkins, a prominent farmer of this section, died at his home Sunday, aged 70 years.——Mrs. J. W. Morris and children, of Pinner's Point, Va., are visiting Mr. and Mrs. H. S. S. Cooper.——Misses Louise Goode and Mary Buford Sledge, left Tuesday night for Spartanburg, S. C., to visit relatives.——John B. Sledge and Pierce Johnson have returned home from Trinity Park School at Durham.

Mrs. J. L. Howell and daughter, Miss Edna, of Richmond, Va., who have been visiting relatives here, have returned home.——Miss Etta Powell, of Whitakers, is the guest of Mr. and Mrs. H. L. Allen.——Mrs. O. J. Stubbs, of Gloucester county, Va., is here on a visit to Mrs. T. F. Anderson.——Mrs. R. G. Kendrick and children, of Greensboro, are visiting relatives here——Miss Mary Mabry left Tuesday for Greenville, where she enters the Teachers' Training School.

Miss Janie Thornton, of Richmond, is visiting her sister, Mrs. J. D. Everett.——Miss Eunice Clark has returned home from Wilmington.——Mrs. J. S. Turner and children, who have been spending some time with friends in Tillery, have returned home.

AFFAIRS IN COLUMBUS.

Picnic at Lake Waccamaw—Drainage. Other News Notes.

(Special Star Correspondence.)

Whiteville, N. C., June 9.—The Baptist Sunday School had a picnic at Lake Waccamaw yesterday and spent a delightful day, as the weather was ideal. About 75 were present, others being deterred from going through fear of rain.

The foundation of the Waccamaw club house, at Wananish is now building, the cellar being completed. It will be a large and modern club building, with every convenience and improvement. There will be 14 bed rooms upstairs for the accommodation of members. The club owns eight acres of land, fronting the lake, and this will be utilized by members in building Summer homes for their families.

The last Legislature incorporated Lake Waccamaw, and it is one of the most extensive corporations in the county, extending from Wananish to Lake Waccamaw. The new corporation will open a broad drive connecting the lake fronts of the two places, and which will greatly add to the attractiveness of the place.

The Council Tool Company has started up its ice plant and the first blocks will be taken out today. It is operated in connection with their factory and will be a great convenience to the citizens.

A petition has been filed in the clerk's office that means much for Columbus county. It is to begin the work of drainage of White Marsh and its tributaries, beginning at the Seaboard railway and extending far into Bladen county. There will be a 30-mile canal cut. The petition is signed by about 150 landowners, and the bond of $1,500 filed to insure the preliminary work.

PEAK OF MT. MITCHELL.

Log House Being Built for Accommodation of Tourists.

(Special Star Correspondence.)

Asheville, N. C., June 9.—There is being erected on the top of Mt. Mitchell a log house for the accommodation of tourists. It is to be large enough for the accommodation of about 40 guests. It is being built by the projectors of the horse-back trail from Graphiteville to Mt. Mitchell, who own about 8,000 acres of land in that section. The purpose of the trail is to open the land for inspection of probable purchasers, but it will, of course, be used by mountain climbers. Graphiteville is the nearest point on the Southern Railway to Mt. Mitchell. While the peak is full of historic interest, comparatively few tourists visit the place where there is a monument over the bones of Prof. Mitchell, on account of the rough trail.

It is expected that the house will be finished by July 1st, which will be in good time for the mountain climbers, who can have a comfortable lodging place.

SUIT FOR DAMAGES.

R. H. Burriss Filed Complaint in the Brunswick Superior Court.

(Special Star Correspondence.)

Southport, N. C., June 9.—In a suit for alleged slander, R. H. Burriss today filed complaint in the Superior Court before Clerk R. S. Newton, for damages to the extent of $10,000. The defendant in the action is Mrs. E. C. Atwood, who recently came here from the North and who has made several investments here. The complaint sets forth that on April 18th last, the defendant in conversation with the plaintiff and in the hearing of others spoke words detrimental to his reputation, and that such words have damaged him to the extent of the amount sued for. Mr. Burriss announces that he has employed as counsel Messrs. B. G. Empie and Herbert McClammy, of Wilmington, while it is understood that the defendant will have as her attorneys, Messrs. Cranmer & Davis, of the local bar.

For the Children.

CONFERENCE OF Y. W. C. A.

Delegates Beginning to Arrive—Encourage Building Good Roads.

(Special Star Correspondence.)

Asheville, N. C., June 9.—The delegates to the Southern conference of the Y. W. C. A., are beginning to arrive in the city for a conference lasting from June 9th to the 19th. Quite an extensive programme has been prepared. Each day there are Bible studies. Mission study classes and technical councils which are to be held in the mornings and in the afternoon and evening, there will be various exercises of study and entertainment. The presiding officer is Mrs. G. K. Swinbourne; executive of the conference, Miss Mary Louise Allon; assistant executive, Miss Anna D. Casler; hostess of the conference, Miss Mildred Rutherford. The sessions are held at the Normal and Collegiate Institute. Before the conference is ended it is expected that more than 400 delegates will have been in attendance.

At the last meeting of the County Commissioners, representatives of the Good Roads Association and the Asheville Motor Club proposed that their organizations and the county provide money to offer prizes to the road supervisors who keep in the best condition the road under their care. The county accepted the proposition and three prizes will be offered.

WOMAN'S MISSIONARY UNION.

That of Western North Carolina Conference at Lexington.

(Special Star Telegram.)

Lexington, N. C., June 9.—More than 200 delegates are attending the annual meeting of the Woman's Foreign Missionary Society of the Western North Carolina Conference. It is the largest attendance in history. This is the 21st session. It contributed to foreign missions the past year $16,082.33. It has a total membership of over 5,000 including adult young people's juvenile societies. The sessions continue until Monday afternoon.

New York, June 9.—The convention of the Inter-State Cotton Seed Oil Association closed today with the election of the following officers: President, R. L. Heflin, Sherman, Texas; vice president, C. W. Ashcraft, Florence, Ala.; secretary and treasurer, Robert Gibson, Dallas, Texas.

Foley Kidney Pills

TONIC IN ACTION - QUICK IN RESULTS

Give prompt relief from BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and all annoying URINARY IRREGULARITIES. A positive boon to MIDDLE AGED and ELDERLY PEOPLE and for WOMEN.

Backache, Rheumatism, Nervousness.

Mean disordered kidneys, Foley Kidney Pills have helped your neighbors; they will also help you. Mrs. Mary Gerity, Scranton, Pa., says: "Some time ago I was troubled with a severe backache. I took Foley Kidney Pills and these cured me promptly. My backache was due to my kidneys which were in a weakened condition and annoyed me with their frequent and painful action. Foley Kidney Pills cured me promptly and I do not hesitate to recommend them." R. R. Bellamy.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months; 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Saturday, June 10, 1911.

The best way to keep from being lined up with "dead ducks" is to keep on doing something.

A professor advises: "Learn how to put the light out." The professor should learn how to put out the light.

Says the Houston Chronicle: "A good man is always good company for himself." No doubt, however, he has lots of lonesome spells.

"The world belongs to the young man," says Col. J. C. Stubbs, vice-president of the Harriman lines. At the same time the girls will keep right on trying to find out which ones are taking in the most cash for the part they own.

Col. Roosevelt was all-fired quick to disclaim that he had lost his equilibrium and prematurely committed himself to President Taft for 1912. If there is anything that Teddy enjoys it's standing off and seeing a heavy-weight flounder around on his own hook.

Gentlemen, do you wear swanky clothes? Swanky is an ugly word but the "Tailor and Cutter" magazine, while deprecating that there should be such a slang expression, says "swanky is just the word for describing those features of style and finish which are implied in up-to-date, ultra fashionable men's garments."

Some writer seems worried over "peculiar and unaccountable noises heard at different times." Nothing in the world to be worried about. The whole thing is easily explained. Lots of the noises are caused by Col. Roosevelt while working overtime nailing lies. Others are made by Col. Bryan in his efforts to enforce recognition of his jurisdiction.

One of those wonderful Chicago professors asserts: "Courtship should not be left to chance and the unguided impulse of youth." He thereupon urges the necessity for instruction as to how acquaintances should be formed between the sexes. Go to with the Chicago professor. These things are learned thoroughly in the school of experience and the whole business depends on taste, tact and tactics. No rule would work the same way in any two cases.

Some folks are kicking because Woodrow Wilson is going around the country making speeches. Gracious! If the man would sit down and keep a still tongue we'd never know what's in him. The country wants to know right now what all the Presidential timber stands for, and, if the gentlemen can afford to talk, it's for the people to listen and size them up by what they say. That's the way we found out a whole lot of things on Col. Bryan, Col. Roosevelt, Judge Taft and Captain Hobson.

"The recall means a trial by the voters," says an advocate of that way of dealing with an official who happens to be hauled up before the people. Well, if it is a trial it won't be a fair one if the official's enemies hire automobiles and cabs to get his kind of jurymen to the polls. Then, again, the defendant might ride his friends to the polls—but what's the use worrying over an official dho doesn't know how to hold an office that some other fellow wants? Contemplating the "recall" from a position "up a tree," it is liable to turn out right or turn out wrong, and our sage old friend Shakespeare just about sized it up right when he gave it out that "All's well that ends well."

ENCOURAGE MANUFACTURING.

That manufacturing pays, we have but to point to the thrift and growth of those Southern towns and cities which have become manufacturing centers. The whirr of spindles and the clatter of looms have awakened the sleepy villages and aroused the drowsy towns of the Piedmont. The factory whistles have stirred the people from their slumbers, and industry and its rewards have converted hamlets into towns and towns into cities. Progress has been most marked where capital has been invested in industries, and today the busiest towns and cities in the growing South are those which have ceased to depend on the stores and the farms to make cities.

The cities which have taken to manufacturing have grown because industries pay. They "pay" in several different ways. The dividend is not the only way they pay. They pay because they furnish employment to people who get their share of what a factory pays. They patronize the merchants and so the factory pays the merchant. The people employed in industrial plants depend on the surrounding country for produce, and that is where factories pay the farmer. The aggregation of people on account of manufacturing industries calls for homes, and it quickens the demand for real estate. The real estate men come in for their share of factory pay, and the carpenters, the house builders and the dealers in building material find out that factories pay. The dividends and all these different pays find their way in some manner to the banks, and it comes about that industries pay the banks while the banks accumulate capital and become one of a city's chief assets.

Just where the paying feature of manufacturing begins and ends, it would be difficult to say, for it ramifies and keeps on ramifying. Industries create a demand for raw material and everything that is produced in a community, and they make work and wages for otherwise idle people. They attract puopulation to a city, and the final and principal consideration is that manufacturing and industrial enterprises immensely pay a city.

How to get factories is now the question, and it is so now that the competition in factory getting is tremendous. Every city in America is engaged in it and each has some plan or other. Plan? Yes, plan, for getting factories calls for a regular plan and a campaign to push the plan. The most original, attractive and appealing plans are the ones which make good, and as for one of these plans run your eye over this from the Baltimore Sun:

"The city of Wheeling, W. Va., already the center of a large number of important manufactories, wants more, and the business men have adopted a plan for securing them that will no doubt bring results. The scheme is to ask the banks for $1,000,000, to be lent to such new industries as are indicated by the committee into the hands of which that part of the work is put. The banks will be secured by the guarantees of the business men and corporations of Wheeling. If any of these new concerns prove a losing venture, the money advanced by the banks will be made good pro rata by the endorsers. In this way it is expected to get a large number of new industries at little risk, and perhaps no final cost at all, as it is not probable that many of the assisted industries will prove failures, and the losses of those that do will fall so lightly upon the individual indorsers as to make them little felt. The practicability and security of the scheme will depend finally upon the care and judgment exercised in the selection of the plants to which aid is extended, and if these are properly chosen the slight losses that will be sustained will be more than made up by the benefits accruing to the guarantors from those institutions that prove successful. Wheeling is evidenly determined to be in the front rank of progress."

Pretty much that sort of plan was worked by Jacksonville to sell Florida lands—anywhere in Florida—and to build Jacksonville. The census returns show what it did for Florida, and the growth of Jacksonville showed what it is doing for that live and growing city. Oklahoma City successfully landed huge industrial enterprises by making "definite offers" of what the people of that city would do for an industry if it would locate there. The Oklahomans organized a company with capital to go after factories and land them by putting its capital into them. They pick out a manufactory somewhere and make it an offer. That takes industries away from other cities, but anyhow Oklahoma City throws out her hooks and lands them all right.

Wilmington has the opportunity to organize a fine plan. It is so plain that it butts into a man who has his eyes open. Let us organize our plans—one for factory getting, another for commerce making, and still another for attracting homeskeers. Do it now.

PUBLICITY A DEVELOPER.

A few months ago The Star contained an editorial pointing out how the South could utilize its cut-over pine lands by establishing colonies for home seekers. These lands offer unrivaled and attractive opportunities for making prosperous agricultural communities and for even building towns. We didn't have to go but 53 miles from Wilmington to find a splendid object lesson in a plan which not only developed a thriving agricultural and trucking region but which built a thriving town of 1,200 inhabitants. That town is Chadbourn and the community is the prosperous section section known as the "Sunny South Colony," which was promoted by State Senator J. A. Brown, of Columbus county.

We took liberties with Mr. Brown's name and pointed to Chadbourn's success as a great object lesson. It gave more publicity to Chadbourn, however, and that was both designed and incidental, for we aimed to help Chadbourn and make the colony a good example to be followed elsewhere. Writing to us concerning this matter, Mr. Brown, says:

"Your recent kindly reference to my efforts here deserve my appreciation. I note several of the Southern papers have quoted from your recent editorial, and I, of course, appreciate the fact that individually I get some advertising and that the section of country we (you and me), have worked so hard to develop, gets a great deal of advertising.

"The general public I find is always anxious for advertising, provided it does not cost anything. It has been my experience here, as in all business or public matters; if we can not pay for it, surely we can give a word of encouragement.

"Except for the free use of printer's ink, the Chadbourn colony would never have been. Every man brought here was the direct result of systematic and persistent advertising.

"The thing we should look to above everything is to see that the settlers who are attracted, are not misled and put in sections that are not productive and capable of development.

"After years of close study and observation, I am as thoroughly convinced as ever that all North Carolina needs to make it one of the greatest agricultural sections of the union is thorough drainage and intelligently used.

"Aside from any personal interest that I might have in the matter, I appreciate your efforts as representing the entire eastern section of North Carolina, and there is no estimating the amount of good that comes from this class of advertising in dollars and cents."

CALHOUN ETIQUETTE.

Captain Richmond Pearson Hobson has kept on till he has "started something." He has succeeded in getting jumped on for violating what is called the rules of "Calhoun etiquette." Captain Hobson has been in demand on Chautauqua circuits and as a commencement orator, and in the course of his career he brought up the other day at the Alabama Presbyterian College for Men. He delivered the commencement address to the students, and he plunged so vigorously into oratory as to be almost "overcome by heat." He saved himself by shucking his coat, and there is where the captain began to catch it. The Baltimore Sun says:

"There were many ladies present, and Captain Hobson apologized for his act. But the matter created a good deal of a sensation nevertheless, and, one of the audience, the Rev. John G Glass, administetred instant reproof by rising from his seat and leaving the hall. The incident caused widespread discussion and called forth a letter from the president of the college, Dr. John W. Staggs, that was caustic in the extreme. Among other things Dr. Suggs said that "during the entire time Mr. Hobson was boring me with his long address I wore a long-tailed, heavily lined 'burying coat,' but I wore it simply because I understood Calhoun etiquette, a thing unknown to a man like Mr. Hobson, who, if he had manners, as the old negro would say, would sho' be a big man." The Sun is not sufficiently versed in "Calhoun etiquette," to discuss it with enlightenment, but it must be bound up in curious conventions to strain at the gnat of Captain Hobson's unconventionality and swallow the camel of rudeness shown to an invited guest by those who thus criticised him."

The Sun makes a fine and telling point between propriety and rudeness. Captain Hobson may have violated the rules of "Calhoun etiquette," in his breech of the polite proprieties, but Dr. Staggs did something that calls for some reflection on his part as to whether a breech of etiquette is as unbecoming as an exhibition of impoliteness and a voidance of courtesy.

Those who are not satisfied to pay $4,000,000 an ounce for radium will be extremely gratified to learn that they can purchase a cheap substitute known as mesotherum, which any dealer will sell for $50,000 an ounce. However, don't but any cheap substitute, for no doubt the price of radium will come within the reach of all just as soon as the Senate sees its way clear to agree with everything President Taft says about reciprocity with Canada.

CURRENT COMMENT.

Those 300 convicts who work in the hosiery mill, at danger of contracting tuberculosis, would find fresh air work on county roads most beneficial to their health.—Charleston Post.

Iowa has chosen 46 women as county superintendents of education, and incidentally illiteracy is lower in Iowa than in any other State, with the exception of Nebraska and Kansas.—Nashville Tennesseean.

A year ago Senator Bailey and Mr. Bryan had a sharp exchange of words over the wool question. Mr. Bryan recently butted in again, but the Bailey view of the question is the one that won out in Congress.—Jacksonville Times-Union.

Ex-Governor Jarvis remarked to a number of friends in Raleigh yesterday that Hon. C. B. Aycock is going to be the next United States Senator from North Carolina and that Hon. Locke Craig, of Asheville, is going to be our next Governor. In the latter prediction, at least, the Post believes that the time will prove Governor Jarvis to be entirely correct. Locke Craig will surely be North Carolina's next Governor. Watch the Post's prediction.—Salisbury Post.

The House Committee on Expenditures in the State Department seems to be making a pretty thorough investigation and to be turning up some interesting facts. One of them relates to a man in New York holding three Federal offices and a State office, and drawing four salaries. The Federal offices pay around $1,400 each. The question will probably be raised as to why one man is permitted to draw so many official salaries. The investigating committee is likely to find, before it gets through, that there are a number of peculiar items in the Federal pay rolls.—Savannah News.

Bryan had a career of usefulness. He has been an eloquent forerunner, blazing the path of many desirable reforms. It argues nothing against his ability or his character that the nation has so often declined his official assistance. His place in American history is absolutely secure. But the party now needs a rest from Bryan. It controls the popular branch of Congress and approaches the next national campaign with conditions favoring its success. It needs the counsel of peacemakers, not troublemakers; it should cultivate harmony, not discord. Col. Bryan should desist.—Cleveland Plain-Dealer.

The insurgents who have been opposing the Canadian reciprocity agreement in the name of the 'farmers' are put in a particularly ridiculous position by the testimony of the paid lobbyists or promoters who have been carrying on the campaign for the farmers in connection with the lumber trust, the paper trust and sundry high tariff organizations, by all of which they were retained with the same object. The Senate committee elicits some interesting information about the National Grange, that was represented as speaking for the farmers, but this was less striking than the revelation of its 'community of interest' with the various hated trusts represented by the same literary bureau. The insincerity of the insurgent opposition to reciprocity has been sufficiently apparent before; this exposure reduces it to a joke, which Senator La Follette—that dauntless foe alike of trusts and of lobbyists—must find it hard to explain away. The friends of reciprocity have only to stand firm and the opposition will destroy itself.—Philadelphia Ledger

SIMMONS AND RECIPROCITY.

Will Vote for Bill Only With Free List Appended.

(Special Star Telegram.)

Washington, D. C., June 9.—It has been reported that Senator Simmons would vote for the Canadian reciprocity bill. A New York paper published a story to that effect. The correspondent of the Asheville Citizen was asked to ascertain if the story were true. "The New York correspondent is misinformed," said Senator Simmons today. "What I have said and what I still say is that I would vote for the reciprocity agreement if the farmers' free list bill is added to it as an amendment."

"There is a systematic effort to create the impression that the only sincere and genuine opposition of reciprocity comes from the manufacturers of lumber and of paper. That this is a pretense is conclusively shown by the fact that the Democrats of the House, admitting that the treaty would be hurtful to the farmers, passed a farmers' free list bill to compensate him for this injury. Notwithstanding the slanderous statements to the contrary, I am against reciprocity because of its manifest injustice and wrong to the farmer. If that wrong is measurably remedied by putting the things he buys as well as the things he sells upon the free list as provided for in the free list bill which has passed through, I will vote for it. Otherwise I cannot. This is what I have said all the time." H. E. C. B.

Wins Fight for Life.

It was a long and bloody battle for life that was waged by James B. Mershon, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and run-down. For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim." For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, la grippe, asthma, hay-fever or any throat or lung trouble it is supreme. 50c. and $1.00. Trial bottle free. Guaranteed by R. R. Bellamy.

TRULY CARDUI IS GOOD TONIC

Says Texas Lady Who Writes to Tell of Great Benefit It Was to Her in Ending Long Suffering.

Commerce, Texas.—"I had suffered painfully every month since eleven years ago," writes Mrs. L. R. Hamilton, of this place, "and for almost two years had suffered untold agony. I began taking Cardui, and I find so much relief. I keep it all the time, and always praise it to my friends. Truly Cardui is the best tonic for women I ever saw, so I am writing a few words to tell you of the relief I obtained from your medicine. I can't praise it too highly."

The best way to cure female troubles, pains, headache, backache, etc., is to help nature to do it, by taking Cardui.

Is life a burden to you? Act at once. Get a bottle of Cardui at the drug store today and try it. You will probably feel better tomorrow.

Not alone for woman's pains is Cardui of benefit, but also for woman's weakness, debility, lack of energy, loss of appetite, nervousness, etc. It is a true tonic, helping to build up the flagging forces.

Cardui has brought health and happiness to thousands of weak women. Why not to you?

Try Cardui.

HEALTH ORDINANCE ADOPTED

The Duties of City Superintendent of Health Defined and Office of Assistant is Created—Use of Sidewalks.

The City Council in called session yesterday afternoon adopted a lengthy health ordinance, defining the duties of the city superintendent of health and creating the office of assistant city superintendent of health, the latter to be selected by the former but elected by the Council. The superintendent is given more authority than is usually vested in such an official and he is made directly responsible for the health and sanitary conditions of the city.

Dr. Chas. T. Nesbitt, the newly elected superintendent of health, was present and the ordinance meets with his approval. Dr. Nesbitt has been prominent in the campaign for a healthier city and in his official position it is expected that he will produce great results in this respect. He has already taken charge and in a manner which augurs that something will be accomplished in the health department of the city government during the next few months. The meeting was presided over by Mayor Joseph D. Smith and in attendance were Councilmen Perdew, Tiencken, P. Q. Moore and B. C. Moore, Capt. Thos. D. Meares, the clerk, and City Attorney Herbert McClammy. The following is the ordinance as adopted by the Council:

"An ordinance to amend Article 4, Sub-division 1, of the Ordinances of the City of Wilmington:

"By virtue of the powers conferred by the laws of the State of North Carolina, be it ordained by the Council of the City of Wilmington, and it is hereby ordered by the authority of the same:

"Section 1. That the Council of the City of Wilmington shall annually appoint a superintendent of health, who shall be the municipal health officer of the said city. He shall be a licensed physician, of good standing and shall be paid such salary as may be annually fixed by the Council. He shall give such time as the Council may require, or as may be necessary, for his public duties.

"Section 2. The superintendent of health shall be the general health officer of this city, and shall do his duty at all times, and he shall have power to require all members of the police to observe and report to him the sanitary conditions of all parts of the city.

"Section 3. The city superintendent of health shall have power to make such recommendations for the promotion of the public health as in his judgment may be necessary, subject to ratification by the Council. The superintendent of health of the city shall be the executive officer of the board of health and shall perform, for the City of Wilmington, the duties prescribed for the county superintendent of health, as laid down in an Act of the General Assembly, ratified the 7th day of March, 1911, and such other laws of the State as are not inconsistent therewith, and such other duties as may be imposed by the Council, including the collection of vital statistics. He shall be, and he is heerwith, designated as the local registrar of deaths, in accordance with Chapter 722 of the Public Laws of 1909, as amended by the Laws of 1911. He shall notify the secretary of the State Board of Health of his election and shall make such report and answer such inquiries concerning the sanitary condition of the city, diseases prevalent, vital statistics and so on, as may be required by the State and city boards of health. He shall hold this office for one year, unless sooner removed by the Council.

"Section 4. The superintendent of health shall be the ex-officio secretary of the city board of health, and shall keep a full and accurate record of all business done at the meetings of the said board. He shall report to the Council all orders and regulations of the board of health, noting the changes desired and amendments sought.

"In case of emergency, or when in the opinion of the city superintendent of health, immediate action is demanded, the city superintendent of health is empowered to suggest immediate regulations affecting the health of the city, or works of his office, without prior consultation with the board of health, for the purpose of securing necessary action from the Council thereon.

"All orders, rules or regulations emanating from the board of health or the city superintendent of health, and ratified by the Council, shall be published or posted in a place or places to be disignated by the Council, which publication shall be deemed a legal notice to all persons. The city superintendent of health shall file and keep for reference, all reports, complaints, orders or other papers, relating to the business of the board, or of his own department. He shall keep in a book provided for the purpose a full record of all vital statistics.

"Section 5. The city superintendent of health shall annually divide all the city into as many health districts as he may deem necessary, and shall assign to each district one of the health officers appointed by the Council, provided, however, that the city superintendent of health shall have power to transfer from one district to another, any health officer as in his judgment, may seem best. The said health officer shall have the same powers and authority as the police of the city in enforcing all regulations in reference to public health. Each of the said health officers as often as he shall deem necessary, and not less than once a week, or as directed by the superintendent of health, shall visit and inspect the condition of his district, and shall make and note, and report in writing, to the superintendent of health the condition of his district, and any violation of the orders, rules and regulations promulgated by the Council, and serve such legal notice as the Council may direct. His term of office shall be subject to the will of the superintendent of health, and his compensation to be fixed by the Council.

"Section 6: The superintendent of health shall furnish each month, a bill of mortality to the board of health and to the Council, with a report showing the condition of the public health, during the preceding month, with such suggestions and recommendations, as he may deem necessary and expedient.

"Section 7. The position of assistant superintendent of health is here by created. He shall be a graduated physician of good standing and shall be paid such salary as may annually be fixed by the Council. He shall be elected by the Council, upon the recommendation of the superintendent of health, and shall hold the office for one year, unless sooner removed by the Council.

"Section 8: The assistant superintendent shall perform such duties as may be required of him by the superintendent of health and any delinquences on his part shall justify the superintendent in suspending him, until action is taken by the Council, to whom such suspension shall be reported by the superintendent of health as soon as possible. The assistant superintendent of health shall be required to give his entire time to the duties of his office if deemed necessary.

"Section 9: The health officers shall perform such duties as may be required of them by the superintendent of health, and any delinquency on the part of a health officer shall justify the superintendent of health in suspending or discharging him. All health officers shall make their investigations minutely and perform their duties thoroughly, as required by the superintendent of health, and shall report to the superintendent of health the names of all persons, who may offer any resistance to them in the performance of their duty.

"Section 10. The city superintendent of health, or any health officer, shall have the authority to enter any premises, dwelling or building for purposes of inspection of examination, or for the purpose of securing the necessary information for compiling statistics necessary to the health work of the city.

"All persons are required to give to the proper officers, such information as may be necessary to render complete, the health statistics required by the department of health.

"Section 11. That this ordinance shall not be deemed to repeal any ordinance heretofore adopted by the Board of Aldermen in reference to health or sanitary regulations, except where the same are inconsistent herewith, but on the contrary all ordinances, or parts of ordinances heretofore in force in the city of Wilmington, and not expressly inconsistent herewith, in reference to the city board of health, or health or sanitary regulations shall still be deemed to be in force and effect."

A largely signed petition was read from downtown merchants asking the Council to repeal the ordinance which prohibits the use of any portion of the sidewalk for the display of goods, wares or merchandise. Some of the merchants desired the privilege of placing upright show cases for the display of neck ties, collars, etc., in front of their doors. Councilman Perdew moved that the privilege of using two and a half feet of the sidewalk be granted to the merchants. There was no second to the motion, but it was evident that the Council desired to give the relief if such were possible. The city attorney was asked his opinion as to whether the Council has a right to grant two feet of sidewalk to merchants for the display of goods or sell wares or merchandise, and he replied that the streets were dedicated to the public and the Council has no right to infringe on the rights of the pedestrian, therefore could not grant the request for any portion of the sidewalk. Mr. McClammy also pointed out that the commission form of government bill prohibits giving of franchises for the use of the streets except in case of a public utility. Councilman Perdew told of seeing fruit stands, bootblack stands, etc., on the sidewalks in Philadelphia and other Northern cities, and City Attorney McClammy remarked that in those cities the right to do this is given in the charter and that the cities derive a revenue from this source. Wilmington, he said, has not this right because it is not so provided in the charter. He said that the Council could grant the use of seven feet of the sidewalk just as easily as two feet. He suggested as he has suggested at several previous meetings that the only remedy is through legislative enactment two years hence. It appeared to be the sense of the Council that if it had the power the request of the merchants would be granted; not only would this privilege be given the downtown merchants, but merchants in every section of the city.

The ladies of the city and a great many men as well have worked for a long time for an ordinance which would prohibit the use of the sidewalks for the display of goods, wares or merchandise, and they will be glad to know that the Council cannot legally grant to merchants the privilege of using the sidewalks for this purpose. The action of the Council in refusing to grant the privilege to use the sidewalks will very likely result in a movement to require the removal of all telephones, telegraph and trolley poles from the streets. It is expected that this matter will be given some consideration at the next regular meeting of the Council, for it is understood that some of the merchants will urge the matter at that time.

Soon after the meeting convened, Col. Chas. H. White, the tax collector, entered the Council Chamber with the pay envelopes of the Councilmen for the time they made during the month of May. This was the first money they have drawn from the city. During the month of May they served for 25 days and at the rate of $1,900 a year the amount for this period is $131.95, which they drew yesterday. The next meeting of the Council will be held Tuesday afternoon.

IMPROVING UPPER COMPRESS

Contract for New Large Addition Will be Let Soon—Both Compresses Will be Used Next Season. Improvements.

Preparations are being made by Messrs. Alexander Sprunt & Son for extensive improvements at the upper compress, which will include the erection of a large warehouse, additional wharf facilities and a new cotton press to correspond with those at the Champion Compress, to be in readiness about the opening of the new cotton season, September 1st.

Improvements to the present building are now under way and it was stated yesterday that the contract for the warehouse will be let within a short time. For the past few years Messrs. Alexander Sprunt & Son have used the Champion Compress exclusively for pressing and storing cotton and steamers have docked there to receive the staple for foreign export, but next year, notwithstanding extensive improvements recently made at the latter compress, the upper compress will be in operation and vessels will also be loaded there. The crowded condition of the Champion Compress necessitated more facilities for handling the staple during the busy season and throughout next year the large cotton exporting firm propose to have both compresses in operation. The building of new docks to accommodate large steamers is also being made now, this being an important feature of the proposed work and will require considerable time, likely being completed before the Fall.

The cotton season nearing a close has so far surpassed that of last year at this port and an exceedingly good showing will be made in the exports of the staple in the annual report of Collector of Customs Keith to be made the 30th of this month. The upper compress for some time past has been used as a storage for fertilizer products.

COUNTRY BANKERS COMING

Will Hold Their Annual Convention at Oceanic Hotel, Wrightsville Beach in August—Several Hundred Expected.

Formal announcement was made in this city yesterday that the annual convention of the North Carolina Country Bankers' Association will be held at the Oceanic Hotel, Wrightsville Beach, on August 9th and 10th, 1911. It is needless to say that the citizens of Wilmington and of Wrightsville Beach will enthusiastically cooperate with the local bankers in making this the banner convention of the association.

Mr. Lacy Williams, cashier of the Bank of Maxton, was in the city yesterday. He is secretary of the Country Bankers' Association and after looking over the field, etc., he made the formal announcement that the convention will be held here. He spent the day in Wilmington conferring with local bankers concerning the details and plans for an excellent programme for the convention.

The Country Bankers' Association includes banks within a radius of 100 miles of Hamlet, N. C., and Mr. W. S. Blakeney, president of the Bank of Union, at Monroe, is president of the association and Mr. Williams is secretary. The National banks of Wilmington are members of the association and are delighted at the prospect of being hosts on this occasion.

It was announced several days ago that the local bankers were endeavoring to secure the next convention of the Country Bankers' Association and at once an urgent invitation was forwarded to Mr. Williams by the Oceanic Hotel Co., it being the desire of that excellent hostelry to entertain the country bankers of North Carolina as the first convention held at the beach since the opening of the new hotel.

Mr. Williams stated yesterday that he confidently expected an attendance of approximately 200 delegates, their friends and ladies. Mr. Williams will return to his home on the Seaboard Air Line train today.

SUNDAY SERVICES.

Announcement by Wilmington Pastors For Services Tomorrow.

INTRA-COASTAL WATER ROUTE

Important Hearing Will Be Given in This City Today Noon—Proposed Waterway via Wilmington Will Be Urged.

Of decided interest and far-reaching importance to Wilmington and this section will be a hearing today at noon in the rooms of the Chamber of Commerce before the board of officers of the intra-coastal survey for the purpose of finally deciding upon the route of the proposed inland waterway along this immediate coast.

The hearing is at the request of the North Carolina Waterways Association, which is of the opinion that the public interest will be much better served by the adoption of the via Wilmington route for the proposed waterway. Mr. James H. Chadbourn, president of the North Carolina Waterways Association, some time ago made request for a hearing in this city at which the board of engineers might hear all sides of the question, which is one of prime importance to all this section.

The board of engineers for the location of the inland water route is composed of the United States Engineers in charge of the several districts through which the waterway will pass, Col. Dan C. Kingman, of Savannah, Ga., being chairman and other members being Capt. Earl L. Brown, Wilmington; Capt. Geo. M. Spaulding, Jacksonville; Capt. E. M. Adams, Charleston. It will be recalled that some time ago there was a rumor that the report of the engineers would favor what is called the "sound route," that is, a canalization of the sounds via Wrightsville Beach to a point about opposite Carolina Beach, thence across the point to the Cape Fear. Wilmington business men and others acquainted with the requirements of the commerce through the proposed waterway are strongly of the opinion that the route should be via Wilmington and thence down the Cape Fear to Southport, where a magnificent land-locked harbor is available for anchorage before proceeding southward, if it should be thus desired. The gentlemen behind the movement for the Wilmington route are duly mindful of the interests of Southport and Fayetteville and believe that the hearings will result in a determination of the question that will be mutually advantageous to all. The hearing before the engineers will begin at noon and all business men interested are cordially invited to be present.

Colonel Kingman, who is Senior member of the board and also division engineer of the Southeast division, has had quite a wide experience in river and harbor work, having had charge of extensive and important projects, will probably be the next Chief of Engineers, being the Senior Colonel of the Corps of Engineers.

FIREMAN CROOM A HERO.

Prompt Work in Trying Situation Averts Bad Accident.

Acting with remarkable presence of mind and total disregard of personal injury, Fireman J. L. Croom, of the central station, made a hero of himself yesterday afternoon, coming out of the accident with a number of severe bruises and the knowledge that he had probably saved two lives.

Fireman Croom was driving the big hook and ladder truck out Castle street in response to an alarm early in the afternoon. Observing that the way was blocked at Eighth and Castle streets, he made the turn at Seventh. As he was rounding the corner a lady and child stepped out and started across just in front of him. With wonderful coolness Mr. Croom turned the horses full into a post supporting a shed on the corner. The tongue of the wagon struck the post with terrific force, and the impact threw the fireman out of his seat and against the post. He sustained a severe cut over his eye and also on his right arm, while his hip was badly bruised, but his noble effort was successful and the woman and child were uninjured. The horses and wagon also suffered no injury.

The brave fireman received many congratulations for his coolness and presence of mind in averting what might have proved a doubly fatal accident had he acted otherwise.

WILL BE INVESTIGATED TODAY.

Mr. James Moore Cut Negro Some Days Ago In Self-Defense.

Mr. James Moore, a well known citizen, solicitor for the Metropolitan Life Insurance Company, went to Justice Harriss Thursday morning and stated that he desired to give himself up for cutting a negro, John Exum, Monday afternoon of last week. A warrant was issued for Mr. Moore and the affair will be investigated this morning. Mr. Moore made report of the matter because he understood that officers were trying to find out something about it. Mr. Moore stated to the magistrate that while waiting on Seventh street, between Brunswick and Bladen, he was accosted by the negro, who was drinking, and who attacked him; that in self-defense he brought his small knife into play, cutting the negro slightly on the neck. The negro went to the hospital, where he had the wound dressed, but did not remain at the institution. It is understood that the negro has made the statement that he did not blame Mr. Moore for cutting him, that whiskey which he (Exum), had drank was the cause of the trouble. Mr. Moore is a brother of Councilman B. C. Moore.

TO RESTORE APPETITE.

Take Horsford's Acid Phosphate.

Its use is especially recommended for restoration of appetite, strength and vitality. Try it.

BIDS FOR STREET WORK.

Will be Invited by the City Council Within Next Few Days.

Advertisements have been prepared by Councilman P. Q. Moore, in charge of the Department of Streets, inviting bids for curbing and materials to be used in the improvement of Front street, and are only awaiting the approval of the city attorney as to form and content. In a few days the advertisements will be ready for publication in various trade and business journals in different parts of the country, and as the bids are to be opened 30 days from the date of the first insertion it is not at all improbable that the work of improving Front street will be begun in about two months. It will be stated in the advertisements what is needed in the way of curbing, granite and concrete, street materials, etc., and the approximate amount of the materials necessary will be determined by the city engineer. Bids will be received for any class of permanent street paving, in addition to the kinds of pavement set forth in the advertisements.

Next Souvenir Dance.

The next souvenir dance at Lumina will be given next Monday night and will be for the children. The children will be allowed to dance until 9 o'clock and souvenirs will be given to them at that time. After 9 o'clock the floor will be turned over to the older people. These children's affairs have always been popular and there will no doubt be a goodly number of them at Lumina Monday night. A souvenir dance for the grown-ups will be pulled off next Tuesday night.

Some Show Today.

C. H. Fore & Co., are sole agents for Onyx Hosiery. **

The Recorder's Court.

There were only two defendants before the Recorder yesterday and the session of court was of short duration. William Galvin, colored, charged with assault with deadly weapon, upon Tom Gause, colored, was found guilty and sentenced to three months on the county roads. It is alleged that Galvin struck Gause with a stick. J. C. Newkirk, colored, was required to pay the costs in a case for violating the driving ordinance.

Regular Shoot Yesterday.

A large number of members and others interested in the sport were on the ground of the Wilmington Gun Club yesterday afternoon for the regular weekly shoot. The attendance was probably the largest of the season and the scores were probably the best. Dr. J. H. Dreher was high man, breaking 46 out of a possible 50; Mr. Geo. Boylan was second, getting 45, while Mr. Geo. W. Penny was third with a score of 43.

Lovers of Music.

Don't miss the concerts at Lumina tomorrow. Both afternoon and night concerts will be very fine. Among the numbers to be rendered are: Grand March from "Aida," selections from "Bohemian Girl," "Faust" selections, "Love song of olden days," etc. **

MR. A. S. HOLDEN TO BUILD.

Will Erect Handsome Residence at Winter Park Gardens.

Mr. A. S. Holden has had placed on his lot at Winter Park Gardens lumber and other materials for the erection of a handsome two-story, eight-room residence which he will occupy. The plans were darwn partly by local architects and partly by a Chicago firm and local contractors will build the house, which will be located on the Wrightsville turnpike near the residences of Messrs. George Sloan, G. C. McIntyre, C. S. Lewis and C. C. Brown. The First Baptist Church also has its new chapel at Winter Park in course of construction. The chapel will cost about $2,000.

Codifying City Ordinances.

Geo. L. Peschau, Esq., assistant city attorney, has commenced the work of codifying the ordinances which have been adopted during the past for the government of the city and he is making splendid progress on the rather tedious task. It is understood that the policy will be to bring forward on the books only those ordinances which are needed for the government of the city. The ordinances will be indexed and headings will be so arranged as to allow instant reference to any particular ordinance desired. The codification of the ordinances is a work that should have been done some time ago and will be worth several hundred dollars to the city.

PEACE INSTITUTE FOR YOUNG WOMEN

An ideal Christian Home School. Preparatory and Collegiate Courses, Art, Expression, Physical Culture, Pedagogy, Business, Domestic Science, Music. High standard maintained by large staff of experienced, college-trained instructors. Takes only one hundred boarders and teaches the individual. Unsurpassed health record. Brick buildings. Steam heat. Excellent table. Large gymnasium. Park-like campus. Concerts, lectures, tennis, basketball. Write for our catalog before selecting the college for your daughter.

* * *

Col. Dan C. Kingman, of Savannah, Ga., senior member of the board of officers of the intra-coastal waterway survey; Capt. Geo. R. Spaulding, of Jacksonville, Fla., and Capt. E. M. Adams, of Charleston, S. C., members of the board, which will hold a public hearing today on the proposed waterway route by Wilmington, will be guests of Capt. and Mrs. Earl I. Brown while in the city.

* * *

One of the most delightful of the several excursions on the river this season was the one given last night on the steamer Wilmington under the auspices of the Philathea Class of Fifth Street Methodist Church. The steamer went out to sea for a short trip and made stops at Baldhead and the Lighthouse. There was a large party aboard and the trip was greatly enjoyed by all. The steamer did not arrive on the return trip until after 1 o'clock this morning. A decided feature of the outing was the Bornemann Glee Club, which rendered a number of enjoyable selections.

GOOD SHOWING FOR COTTON.

Growing Condition Lead Other Crops in Department's Report.

Washington, June 9.—Cotton showed the best growing condition on June 1st of any crop reported to the Department of Agriculture. In its general review of crop conditions the Crop Reporting Board today in a supplemental report says:

The month of May was not on the whole very favorable for crop growth, droughty conditions having prevailed over a great portion of the United States. In consequence the average condition of crop growth on June 1is was 2.8 per cent. below the average condition on that date. Some relief from the unfavorable conditions came at the close of May and the first part of June.

Comparing the condition of various crops on June 1st with their average growing condition on that date of recent years, in most cases ten years, and with 100 representing average condition and not normal, the board reports:

Cotton 108.5; sugar beets 103.2; apples 102.5; raspberries 101.8; Spring wheat 101.1; watermelons 100.6; pears 99.7; cantaloupes 99.6; blackberries 99.5; sugar cane 99.5; barley 99.2; Winter wheat 98.5; rye 98.2; oats 96.9; alafalfa 96.1; onion 95.5; lima beans 92.5; cabbage 91.0; pastures 90.2; hemp 89.0; clover hay 84.6; all hay 85.1; peaches 83.5.

It is estimated that the area planted to rye is about 10.2 per cent. less than last year, or about .,003,664 acres, clover (for hay) acreage 6.3 per cent. less than last year, and sugar cane acreage .4 per cent. more than last year.

The average condition of all crops, by States, on June 1st, was approximately as follows: (100 representing the average, not normal, for recent years on that date.

Virginia 85.3; North Carolina 97.2; South Carolina 98.0; Georgia 109.1; Florida 108.8; Alabama 111.3; Mississippi 106.2; Louisiana 110.0; Tennessee 95.1; Kentucky 93.4; Arkansas 104.6, and Texas 107.7.

Lovers of Music.

Don't miss the concerts at Lumina tomorrow. Both afternoon and night concerts will be very fine. Among the numbers to be rendered are: Grand March from "Aida," selections from "Bohemian Girl," "Faust" selections, "Love song of olden days," etc. **

LOCAL DOTS.

—Friends of Mr. Otto Banck, No. 412 Princess street, will be pleased to learn that he is recovering from an illness of some time with muscular rheumatism.

—The schooner Linah C. Kaminski, Capt. Christensen, arrived yesterday from New York with cargo of coal for the Springer Coal Company. The vessel is to C. D. Maffitt.

—Among the arrivals at the Gibson Cottage, Wrightsville Beach, yesterday were Messrs. Sam Wender, S. E. Harper, Sol Rom, Atlanta, Ga.; J. W. Harroll, Athens, Ga.; J. C. Walker, Cary; Mr. and Mrs. Deans, Raleigh.

—The funeral of Mary E., the 18-months-old daughter of Mr. and Mrs. C. H. Thompson, who died Thursday evening, was held at the home, No. 708 Castle street, yesterday afternoon, Rev. Thos. P. Noe conducting the service. Interment was in Bellevue cemetery.

—The Tidewater Power Company is installing an attractive Bundy time recorder and clock at the street car transfer at Front and Princess streets. Aside from rendering service as an acurate timepiece for this busy center, it will greatly facilitate the handling of cars.

—Mr. G. W. Huggins, the progressive jeweler at No. 105 Market street, has just received a massive steel safe for use in his up-to-date establishment. The safe weighs over five tons and is over eight feet in height. Mr. Huggins invites his patrons to call and inspect the safe. It is absolutely fire and burglar proof and is one of the largest of its kind in town.

—In the Recorder's court this morning three juries will be drawn to hear the evidence in three alleged "blind tiger" cases which will be tried Monday morning. Their names will be given out and the jurors summoned during the day. Ralph Kennedy and John Bradshaw, white, and Thos. Mask Jones, colored, are the defendants. A jury tried Jones several days ago, but a mistrial resulted.

—Deeds were filed for record yesterday as follows: C. D. Maffitt to J. H. Hinton, for $500 and other considerations, lot and cottage on Wrightsville Beach at intersection of Chadbourn street and suburban line; Chas. C. Chadbourn, executor of the last will and testament of Mary Ann Chadbourn, to Addie J. Burris, for $2,800 and other considerations, lot on north side of Harnett, 230 feet west of Fourth street, 34x200 feet in size; F. W. Dick, trustee, to the Robeson Loan & Realty Co., for $10 and otther considerations, lots 72 block J., 60, 62 and 64 block K, 13 and 19 block N, Wrightsville Beach extension.

Larceny of Team Charged.

Charged in a warrant with the larceny of a horse and buggy, Robert Turner and John Lewis, young white men, were arrested shortly before last midnight by Mounted Officer J. H. Davis. They were lodged in the city prison to await hearing in default of bond. The warrant was sworn out before Recorder Furlong last night by Kenzie Hobbs, whose horse and buggy is said to have been stolen. Hall officers did not know whether or not the team had been recovered, but they were inclined to think that it had.

Improving Red Cross Street.

A force of about 50 laborers is at work preparing Red Cross, between Front and Fourth streets, for a pavement of vitrified brick. The Tidewater Power Company is repairing the track and will later put down pavement between and a foot on each side of the rails, this being required by the city. When the traction company's work is done the city forces will take hold and complete the transformation of an unsightly road into a modern thoroughfare.

ENGLAND'S HOPE CRUSHED.

Americans Will Win Banner Event of Polo Contest in New York.

New York, June 9.—America crushed England's hope in regaining the international polo cup at Meadowbrook today, where 25,000 continually thrilled spectators saw the challenging British cavalry officers outridden, and outmaneuvered and finally defeated by a score of 4 1-2 to 3 1-2 goals.

Although the final score was half a goal closer than in the first match, the English players were less of a factor in today's game for only once were they on even terms and that for two minutes about the middle of the game. Today's American victory gives the Meadowbrook team undisputed possession of the cup until another challenge is received.

The match was not only close, but full of brilliant runs and remarkable recoveries at critical points.

American team work was much more in evidence than in the first game and this, backed by the quick running ponies, was enough to outweigh the better mallet work of the English officers. No such defense of a goal, however, has ever been seen in this country as that shown today by the British cavalry officers.

Lieut. Edwards, of the English team, was the only one who was able to drive the ball through the Meadowbrooks' goal posts and the eight goals which the challengers made in the two matches were all from his mallet. Experts generally agreed after today's game that Edwards is the most brilliant individual exponent of polo in the saddle today.

Another determining factor was the lack of good mounts by the English players. What the visitors would have done with a string like that of the Americans which outgalloped the visitors' mounts on every occasion, can only be conjectured.

It was a game full of exciting dashes, seemingly impossible shots and spirited riding off.

There will be an exhibition match between some of the English and American players at Meadowbrook tomorrow and after a brief rest the visitors will leave for home on Wednesday to receive the sympathy of the coronation crowd.

Capt. Lloyd, leader of the Englishmen, said: "Considering how few ponies we had, I think we made a good fight for the cup and I hope every one else will think so."

Black, white and tan silk hose, 50c a pair. C. H. Fore & Co. **

PERSONAL PARAGRAPHS.

—Mr. F. S. Spruill, of Rocky Mount, was a guest at The Orton yesterday.

—Mr. R. O. Tingley, of Charlotte, was registered at The Orton yesterday.

—Mr. D. A. Bennett, of Winnabow, was a business visitor to the city yesterday.

—Mr. N. G. Wade, of Jacksonville, Fla., was here yesterday, a guest at The Orton.

—Mr. and Mrs. T. G. Hyman, of Newbern, were here yesterday, guests at The Orton.

—Mr. M. G. Hunter, of Charlotte, was among yesterday's arrivals and was a guest at The Orton.

—Mr. D. J. Carpenter, of Newton, is spending a few days in the city and at Wrightsville Beach.

—Dr. and Mrs. J. T. Hoggard and Misses Katie and Maggie Hawes, of Atkinson, were here yesterday, guests at The Orton.

—Robert E. Lee, Esq., of the Lumberton bar, was among yesterday's arrivals in the city and was a guest at the Southern Hotel.

—Yesterday afternoon's Fayetteville Observer: "Mrs. Fannie Morrow and Miss Nena Morrow are spending awhile at Wrightsville Beach."

—Mr. and Mrs. F. Sidbury, Mrs. Batson and two daughters and Miss Bethel, of Ashton, N. C., were among the guests at the Southern Hotel yesterday.

—Among yesterday's guests at The Orton were Mrs. L. W. Boney, Rose Hill; Mrs. C. C. Boney, Florence, S. C.; Miss Melva Carr, Rose Hill, and Miss Ethel Carter, Wallace.

—Dr. W. D. MacMillan, county superintendent of health, has been confined to his home for several days on account of illness, but friends will be glad to learn that he will be out again in a few days.

—Mr. Howard B. Branch, telegraph editor of The Star, returned yesterday from a visit of several days to his parents in Durham. He attended the commencement exercises of Trinity College while away.

—Mr. J. W. Gatewood, the local representative of Collier's Weekly, is able to be on the streets again, after a confinement of several weeks, the result of a serious runaway accident on North Front street.

—Among yesterday's arrivals at The Southern Hotel were L. O. Futch, Waycross, Ga.; Mrs. F. Beach, Red Springs; T. H. Cook, Atlanta; G. L. Young, Asheville; R. D. Thomas, Holly Ridge; W. H. Peterson, Waycross, Ga.

THE PRESBYTERIAN COLLEGE.

Dr. Jno. L. Caldwell Assumed Presidency June 1st.

Charlotte, N. C., June 10.—Such a reorganization as has never been experienced in a college in North Carolina before is being effected at the Presbyterian College for Women in this city. Rev. Dr. John L. Caldwell, then pastor of the First Presbyterian church of Pine Bluff, Ark., and ex officio president of a female college owned by that church, was tendered the presidency of the institution a few months ago and he accepted on the condition that the standard of the college be raised still higher and that the work of the college be enlarged upon in every department, or in other words that the institution at a single step be brought up to the standard maintained by the best female colleges in the entire country.

Dr. Caldwell formally assumed the duties of president June 1, and he has been moving things. The resignation of every member of the old faculty was accepted with the exception of one, Mrs. Mary Phillips Russell, lady principal, who will devote her entire attention during the coming year to the duties of lady principal, without attempting to teach any course. Mrs. Russell is a daughter of the late Dr. Charles Phillips, one of the greatest educators in North Carolina during the last generation.

Rev. Dr. J. R. Bridges, former president of the college, will teach Bible and philosophy, becoming as it were a new member of the teaching force.

Having in mind the purpose of securing and organizing the strongest force of college teachers that could be secured, Dr. Caldwell has for several weeks, even before assuming the duties of president, been in close touch with the educational centers and has about completed his list of teachers, selecting from among many applications, the one best qualified for the position. The faculty that will be announced in the catalogue that is now in the hands of the printers will be considerably larger than the faculty that taught at the college last year and, needless to say since the very best talent procurable has been secured, will cost the college considerably more money.

Dr. Caldwell himself will teach no branch, devoting his entire time to the administrative duties of the college. He has laid plans for a larger college and he believes that there will be no empty rooms in the college building during the coming season. Dr. Caldwell himself is an educator even by heritage. His great grandfather, Dr. David Caldwell, was the first president of the University of North Carolina. His father was president of Edgeworth Female College at Greensboro; Concord Female College, at Salisbury, and later of the Rome, Ga., Female College. So after all, having in mind his early training and his experience since, no surprise need be occasioned by the rather startling manner in which he has taken hold of the Presbyterian College.

A Charming Woman

Is one who is lovely in face, form, mind and temper. But its hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c. at R. R. Bellamy's.

..Theatrical..

Grand Theatre.

Always for Saturday Grand patrons expect an unusually good show and are not going to be disappointed this time. The headline picture today is one of the famous Kalem pictures and tells a powerful story. The picture is named "Advertising for Mamma" and will be found very interesting for children. The story centers about the lives of two children who are left to care for their father, the mother becoming dissatisfied at home and leaving. The mother is finally located by seeing an advertisement that the children had gotten out. The story is beautifully staged and should be a big feature. Then there are other features, the orchestra will play a special Saturday programme and Mr. Baldwin will sing a new song. Today is Mr. Baldwin's farewell day at the Grand. During his stay in the city he has made many friends who will sincerely regret to hear of his leaving and will wish him the very best of luck. Mr. Baldwin has been one of the most popular singers the Grand has yet had and his return at a later date will be heralded with delight. Beginning Monday Mr. Harry Tally and wife will open an engagement at the Grand. Come in today and see a good show and at the same time be cool and comfortable. Just the place to rest up from your Saturday shopping tour.

At the Bijou.

A great bill is that offered by the bijou for today. The alert management that never spares pains, nor expense in obtaining the most up-to-date and the most expensive, has made a fine selection of superb moving picture creations for today, and besides has arranged one of the catchiest and merriest musical programmes ever offered in Wilmington. Mr. Banks has a new illustrated song for today that is decidedly novel and tuneful. The illustrations for his big song triumph are indeed beautiful. There will be three reels of the best films offered.Comedy will again play a big part, but two masterpieces in the dramatic film line are also to be offered. In "The Visiting Nurse," will be found a story that is alive with human interest. It tells a beautiful story, and its settings are unique and highly interesting, dealing as it does with a nurse's work among the poor of the great cities. "Short-Lived Happiness" is another great human-nature moving picture tale. It also deals with a novel subject, showing the working of a reformatory and how a youth confined in one of these prisons endures hardships and struggles on until he escapes. This week end bill at the Bijou should certainly not be missed.

THREE SOLONS INDICTED.

Charged With Bribery in Ohio General Assembly—Details.

Columbus, Ohio, June 9.—Three members of the General Assembly and an attachee were indicted on bribery charges today by a grand jury, when they adjourned subject to call. Its investigation of the Legislative bribery is not complete, but it will not be resumed for the present. Those indicted are Senator Thomas A. Dean, Democrat, Sandusky county, whose name has been attached to nearly all the liquor bills during the last three sessions of the Assembly; Representative Frank M. Calvey, Republican, Cuyahoga county, member of the House Calendar Committee; Representative George B. Nye, Democrat, Pike county, also a member of the Calendar Committee and already under three indictments for bribery solicitation; Stanley F. Harrison, Cuyahoga county, assistant sergeant at arms of the Senate. All were indicted twice and all furnished $5,000 bond on each indictment.

BROKER ALMOST KILLED.

Beaten on Head With Hammer by Office Employe.

Philadelphia, June 9.—William R. Taylor, a stock broker, was beaten on the head with a hammer and almost killed during a quarrel in his office in the Drevel building today by George W. Sutton, aged 24 years, an employe of a banking house. Taylor's skull was fractured and late tonight it was reported that his condition is critical. Sutton was arrested and held to await the result of Taylor's injuries. Taylor is reputed to be wealthy.

According to Taylor's brother-in-law M. J. Dalton, declares that Sutton attacked Taylor with the hammer without provocation. Sutton at his hearing today said that he hit Taylor in self defense.

Providence, R. I., June 9.—A cup worth $1,000 offered by King Victor Emmanuel, of Italy, and a $2,000 cash prize, put up by the Automobile Club of Rome, are furnishing the incentives for the trip across the ocean in the 25-foot yawl Seaboard by Thomas Fleming Day, Theodore B. Goodwin, and Frederick B. Thurber.

A SHARP ADVANCE IN COTTON

Caused by Further Support of New Crop Movement—Closed Steady Nine to 22 Points Higher. Features.

New York, June 9.—Continued dry weather accompanied by high temperatures in the Southwest, in connection with further support of the new crop month by prominent bull brokers started covering by yesterday's sellers in the cotton market today and prices advanced sharply with the close steady, net unchanged on August, but generally 9 to 22 points net higher.

The market opened steady at a decline of one point on December, but generally 3 to 9 points higher and before the end of the first half hour showed advances of from 10 to 20 points on covering of shorts and bull support. Realizing checked the advance during the middle of the day and slight reactions occurred, but one of the leading bull brokers offered to buy all the July the market would sell him up to 20,000 bales at 15.60. The Western belt forecast promised no relief from droughty conditions and following the detailed weather reports showing temperatures ranging from 100 to 106 at some stations in the Western belt, there was a fresh spurt of covering which sent the new crop months about 21 to 26 points net higher or into new high ground for the day and in the case of deliveries later than October, to new high records for the season. The market was somewhat unsettled in the later trading and selling of the old crop months was encouraged by a smaller decrease in the world's visible supply of American than for the corresponding week last year, while there was also scattered realizing in the new crop months for over the week-end. The close, however, was only a little off from the best, except in the case of August which eased off quite sharply in the last few minutes and after having touched 15.21 during the early trading closed at 15.09 bid.

Aside from the weather news there seemed to be little to attract attention, and, owing to the holidays, there were no cables from Liverpool where the market will remain closed until Monday morning. The small spinners' takings for the week were attributed largely to the English holidays.

Receipts today 4,100 bales against 9,543 last week and 6,226 last year; for the week 26,000 bales against 27,724 last week and 41,701 last year. To-day's receipts at New Orleans 2,470 bales against 431 last year, and at Houston 44 bales against 372 last year.

Spot cotton closed quiet, 5 points higher; middling uplands 15.90; middling gulf 16.15; sales 200 bales. Futures opened firm and closed steady.

DRY GOODS MARKET.

New York, June 9.—The cotton goods markets are moderately steady, with trading in small lots. The local wool markets are firmer, with a better inquiry reported on carpet wools. Jobbers are doing a light house trade. Many wash goods lines are being opened for spring 1912.

New York, June 9.—Men and women of prominence in social betterment work East and West are named as incorporators of the National Association for the advancement of colored people, whose certificate of incorporation was signed here today. Among the objects of the association are these.

Pure linen hemstitched towels at 25c. C. H. Fore & Co. **

NARROW LIMITS FOR STOCKS

Conspicuous Movements Confined to Few Issues—Bear Party Made Attempt to Depress Prices. Features.

New York, June 9.—Conspicuous movements in stocks today were confined to a few issues, most of which have been prominent for some time on account of their strength. The rank and file of stocks, including the usual market leaders, moved within narrow limits, and reflected no well defined trend.

Speculative interest seemed to have been deadened by the inability of either faction to bring about pronounced changes during the week. The bear party, which has been unusually aggressive at times of late, and with indifferent success, made a few attempts today to depress prices, but the market displayed sufficient strength to meet these attacks easily, although prices were forced downward slightly several times during the day. Neither the crop month nor the monthly copper statement of yesterday furnished the basis for a speculative movement, since in the main they were in line with conservative expectations.

United States Steel was watched closely again today on account of frequent assertions that it is the object of attack of an unusually powerful bear combination. The stock exhibited the same stolid strength which has characterized it recently.

The chief points of strength in the market were Canadian Pacific, which advanced 2 3-8 to 2.42 1-4, a new high record; the Erie, Tennessee Copper and a number of specialties such as American Beet Sugar, Westinghouse Electric, Western Union and Sears, Roebuck. All of these issues gained a point or more. Erie common rose to the highest point reached in a year or more.

The sluggishness of stocks diverted speculative interest into the bond market which exhibited the greater relative activity. Large transactions occurred in New York City 4 1-4c, Atchison convertibles, Wabash-Pittsburg certificates and local traction securities.

The statement of condition of National banks, to be made as a result of today's call on the comptroller of the currency, is expected to disclose generally favorable conditions. A marked improvement in bank clearings for the week was reported. The total loss from last year's figures at the leading centers was only 1.2 per cent. as compared with 14.5 per cent. in the preceding week. Known movements of money for the week indicated a considerable gain in cash by the banks, more than $9,000,000 having been received from the interior as against a loss of more than $1,000,000 to the sub-treasury and shipments of $1,000,000 to Canada.

Bonds were firm. Total sales par value $5,128,000. Total sales stocks today were 329,200 shares.

A QUIET WEEK FOR TRADE.

General Condition on the Market Told in Bradstreet's Review.

New York, June 9.—Bradstreet's tomorrow will say: Trade, crop and industrial conditions are of a variable character with the general appearance one of quiet, though evidences of good feeling hitherto noted are still to bet met. Warm, bright weather continues to favor retail trade which also feels the stimulus of price reductions. Jobbing trade is of a between-seasons character and mid-year sales of Spring and Summer fabrics furnish the chief occupation. Really large business still feels the effects of crop uncertainty and tariff discussion.

In leading industries changes are few. Price reductions have not brought out much new business in steel products, and a waiting policy still prevails. Orders for steel rails have improved. Short time is still the leading feature in the textile trades. Leather is quieter after the spell of buying induced by the recent advance in prices. Shoe manufacturing is not active, except for specialties. The building trades and material lines catering thereto are quiet.

Collections are a trifle better at some centers, but are not better than fair in most sections.

Business failures in the United States for the week ending June 8th were 232 against 168 last wek and 189 in the like week in 1910.

THE GRAIN MARKET.

Chicago, June 9.—Hot weather damage in Kansas, Nebraska and other States almost monopolized the attention of wheat traders today. In consequence, the tone was strong, at a net advance of ¼@⅝ to ½@⅝. Other leading staples, too, all showed substantial gains over last night—corn 1c. to 1¼c.; oats, 1¼c. to 1½c., and provisions from 17½ to nearly half a dollar.

Wheat—No. 2, red, 926933; No. 3, red, 89@91; No. 2, hard, 926934; No. 3, hard, 896 92; No. 1, northern, 986 1.01; No. 2, northern, 976 1.00; No. 3, northern, 906 99; No. 2, spring, 946 96. No. 3, spring, 926 94; velvet chaff, 856 95; durum, 856 92.

Corn—No. 2, 54¾@55; No. 2, white, 54¾@55¼; No. 2, yellow, 55@55¼; No. 3, 54@54¾; No. 3, white, 54½@54¾; No. 3, yellow, 54½@55¼; No. 4, 50@50½; No. 4, white, 50@51; No. 4, yellow, 50@51½.

Oats—No. 2, white, 38@38¾; No. 3, white, 37½@38¼; No. 4, white, 37½@37¾; standard, 38@38½.

Wheat:	Open.	High.	Low.	Close.

Stock at Liverpool same time last year, 565,000.

Stock of American afloat for Great Britain, 57,000.

Stock of American afloat for Great Britain, same time last year, 63,000.

JURY DISCHARGED.

Judge Boyd Tells 'Em They Don't Understand Law.

Greensboro, June 8.—Judge Boyd, in United States District Court yesterday afternoon dismissed a whole panel of jurymen, twelve in number, for the reason that they consistently brought in verdicts of not guilty in illicit distilling cases, when the evidence before them, in the opinion of the court, warranted verdicts of guilty. The last case in which the panel served was that of Evan McKnight, of Yadkin county. In this case the testimony was largely that of revenue officers, but they were men of good characters and told a straight tale. Judge Boyd expected a verdict of guilty, knowing the evidence justified it. When the jury returned a different verdict, he told them that they apparently did not understand the revenue laws and the amount of evidence necessary in criminal cases for conviction, and he would allow them to return to their rhomes and he would get another jury. Twelve men were badly hacked, but they filed out in one-two-three order and went to their homes.

WIRELESS OFFICERS HELD.

President and Other Officers Refused Bail.

New York, June 7.—While execution of judgment of court that they imprisoned in the Federal penitentiary in Atlanta is indefinitely stayed, pending the filing of additional assignments of error, Colonel Christopher Columbus Wilson, president; and four other officers of the United States Wireless Telegraph Company, must remain in the Tombs. The United States Circuit Court of Appeals today refused to permit the convicted men liberty on bail pending the appeal.

Wilson and his fellow officers of the Wireless Company were convicted recently of misuse of the mails in the sale of wireless stock.

NEW YORK BATH TUB MURDER.

Chemist Examining Body of Mrs. Schieb Threatened.

New York, June 8.—Prof. John Larkin, of Columbia University, the chemist who is examining the stomach and viscera of Mrs. Lillian Schieb, who recently was found dead in a bat tub in an uptown apartment, today received a letter, apparently written by a woman, warning him to desist in his investigation under penalty of death. Prof. Larkin's preliminary report said he had been unable to find any traces of poison in the woman's body. He was not alarmed at the letter today, but turned it over to the police as a matter of precaution. Schieb, the woman's husband, is still in the Tombs.

ACT QUICKLY

Delay Has Been Dangerous in Wilmington.

Do the right thing at the right time.

Act quickly in times of danger.

Backache is kidney danger.

Doan's Kidney Pills act quickly.

Are for distressing, dangerous kidney ills.

Plenty of evidence to prove their efficiency.

Mrs. J. E. Marshburn, 516 Castle street, Wilmington, N. C., says: "I am well pleased with Doan's Kidney Pills, for they have given satisfaction in my case. My back and kidneys were in bad shape and I had dull pains through my loins, together with headaches and a kidney weakness. In the morning when I got up, I was tired and languid and had but little strength with which to begin my day's work. After I had used part of the contents of one box of Doan's Kidney Pills, I improved and it was not long before my kidneys were restored to their proper working order."

(Statement given February 24, 1908.)

A Second Endorsement.

On December 2, 1910, Mrs. Marshburn said: "I value Doan's Kidney Pills as highly as ever and have no hesitation in re-endorsing them. They are certainly a good backache and kidney medicine."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

JAMESTOWN TRAGEDY.

No Longer Any Suspicion of Suicide In Case of Mrs. Hill.

Greensboro, N. C., June 9.—All suspicion as to suicide by Mrs. Ida Hill at Jamestown early yesterday morning were removed by the coroner's investigation into the cause of her death, and the rumors to that effect were set at rest. With the evidence that is now before the public the affair stands out as one of the most daring and horrible double crimes of burglary and murder that has occurred in this section of the State in many years. There is absolutely no clue upon which the officers can work, and while they are active in efforts to obtain some information that will lead to the identity of the criminals, the task is at present apparently hopeless.

Two things the officers have concluded—the first, that there were two of the men, and, second, that they were professional robbers. The conclusion that there were two men is indicated by some tracks that were seen and the manner in which the body was bound. That they were professionals and wore masks is indicated by the fact that one lost a mask or had it torn from his face, and this was crammed with a stocking in the mouth of Mrs. Hill.

In the house at the time the crime was committed were Mrs. Ragsdale, mother of Mrs. Hill, several children, Mrs. Hill's sister, Miss Jenie Ragsdale; two men who worked on the farm and a cook. None of these were awakened by any disturbance or sound during the night.

COTTON SEED CRUSHERS.

Notable Social Event Marked Final of Meeting in New York.

New York, June 9.—More than 3,000 persons—members of the Interstate Cotton Seed Crushers' Association, their families and friends—participated tonight in one of the most picturesque functions down town New York has witnessed in years. It was a promenade concert and ball given by the New York Produce Exchange on the board room floor as a fitting finale to the convention of the cotton seed men which has been in progress this week. For once the customary grave yard silence of the financial districts at night was broken.

The music of "Dixie" started the dancing, which continued to a late hour.

At the final session of the convention today a resolution was adopted without a dissenting vote, urging all Southern Congressmen and Senators to give their support to the reciprocity agreement with Canada. This is what President Taft asked the cotton seed men to do in his speech last night. Congressmen and senators are to be told that the association favors reciprocity for reciprocity's sake, and not for the farmers' free list bill and they want the reciprocity bill to pass whether cotton ties and other articles included in the free list are free listed or not.

ON THE WARPATH.

Another "Carrie Nation" on Picnic Rampage in Kansas.

Atchison, Kans, June 9.—With the use of a rifle and her strong arm, Mrs. Tillie McGowan, a temperance advocate, broke up a picnic at which beer was being served near here last night. Mrs. McGowan was passing the picnic grounds when one of the "keg party" knowing her temperance sentiments, chidingly invited her to have a drink, She accepted a cup of the beer, intending to take it away to use as evidence against the merrymakers.

One of the men said she would have to drink the beer or give it up. She answered by picking up a stone and striking the man over the eye with it. The man grappled with her and in the struggle his face was scratched and his shirt torn.

Mrs. McGowan then secured a rifle and chased one of the party into the Missouri river, firing a shot at him, but missing him. Finally she let the man swim ashore and apologize. His companions had fled.

CONFERENCE AT BOSTON.

Family and Neighborhood Conditions Among Poor Discussed.

Boston, June 9.—Family and neighborhood conditions among the poor were the special subject of consideration at tonight's general meeting of the National Conference of Charities and Corrections.

"To abolish the evil results of the saloon a law should be made compelling a man to buy a 50 cent meal with every drink."

So said Dr. Edward Koetzen Ellenborgen, of Boston, at a sectional meeting of the conference.

George B. Hugo, head of a wholesale beer bottling company, said:

"The saloon as an institution causes 75 per cent. of the drunkenness. It ought to be abolished. There is no reason for its existence, and no need of it in a community. After it had been put out of business for a while it would never be missed."

KILLED EIGHT NEGROES.

Shot to Death During Attack on White Men.

Hammond, La., June 10.—Eight negroes were killed at LaBranch last night when they attacked Foreman Boutwell of the bridge force, and Conductor Green Story, of a work train, according to reports reaching here today.

The negroes, employed as section hands, conspired to kill Boutwell when an attack was made on him the foreman shot three of the negroes dead. Conductor Story then came up and he and Boutwell killed five more of the conspirators.

A BUSINESS SUGGESTION.—

Discard the old Pocket Book with its stuffing of worn receipts. Every time you open it there is danger of losing cash, valuable papers, or making incorrect change.

Make a rule to deposit all your cash and carry one of the neat pocket check books given away at this bank. Then pay all accounts and expenses by check. We will render statements and return your checks monthly.

Get in line with business systems. You will save money and establish credit.

The Southern National Bank

PARDON GRANTED.

Ex-Governor Glenn One of Petitioners —Case of Bankruptcy.

(Special Star Correspondence.)

Raleigh, N. C., June 9.—Ex-Governor Glenn is one of the petitioners for a pardon that Governor Kitchin has just granted to Charles Etines, of Madison county, who was in 1905 sentenced to be hanged and then his sentence commuted to life imprisonment, the crime for which he was convicted being criminal assault. Gov. Glenn granted the commutation and promised to grant the conditional pardon before he went out of office, it seems, but overlooked it. In his reasons for the pardon at this time Governor Kitchin recites that the prosecutrix was a woman of very bad character and that she afterwards told a reputable gentleman that her testimony was false. Later when she was prosecuted for perjury she was adjudged insane. The trial judge is dead, but the solicitor has written the Governor repeatedly advocating a pardon for Stines. In fact, the Governor declared, the entire citizenship of the county is urging that pardon be allowed. The pardon is conditioned on good behavior.

An involuntary proceeding in bankruptcy was started in the Federal Court there today against Parker & Chappell, of Nashville, N. C., saw mill and lumber men. The case comes up in the form of a petition from creditors that the company be adjudged bankrupt.

AUTO RACES THANKSGIVING.

Savannah Club Sets Date for Great Contest.

Savannah, June 9.—Dates have been set by the Savannah Automobile Club for the Vanderbilt Cup and Grand Prize automobile races which will be run this year over the famous Savannah course. The races will be run with an interval of one day, and the dates depend upon which Thursday in November is set by President Taft as Thanksgiving Day. The Vanderbilt Cup race will be run on Tuesday preceding Thanksgiving and the Grand Prize on the holiday. A message was sent to the President asking when Thanksgiving will be, and including an invitation for him to attend the races.

The Savannah challenge trophy will be offered for a race of probably more than 150 miles, to be run simultaneously with the Vanderbilt Cup event. The cup race probably will be for about 25 miles and the Grand Prize is near 400 miles as the course will permit.

YEGGMEN AT WORK.

Young Man Blindfolded While They Worked in Tennessee.

Nashville, June 9.—A dispatch from Newport, Tenn., says that at an early hour this morning, Guy Cate, aged sixteen, son of Judge H. N. Cate, of the court of civil appeals, was compelled to stand blindfolded while yeggmen blew up the Newport postoffice safe and got away with 500 in money and stamps. The robbers left no clue.

Young Cate was returning from a social call shortly after midnight and in passing the postoffice building he was confronted by a tall stranger. At the point of a pistol he was blindfolded and led into the rear of the postoffice and ordered to keep quiet. After the explosion and the departure of the robbers he gave the alarm.

The robbers are supposed to have caught a westbound freight train. They took every coin in the postoffice, even the pennies.

VISIBLE SUPPLY OF COTTON.

Hester's Statement Shows 2,813,722 Bales To Date — Features.

New Orleans, June 9.—Secretary Hester's statement of the world's visible of supply of cotton issued today shows the total visible to be 2,813,722 against 2,985,217 last week and 2,834,541 last year. The total of American cotton is 1,671,7-- against 1,810,217 last week and 1,707,541 last year and of all other kinds including Egypt, Brazil, India, etc., 1,142,000 against 1,175,000 last week and 1,127,000 last year.

Of the world's visible supply of cotton there is now afloat and held in Great Britain and continental Europe 1,863,000 against 1,416,000 last year and in Egypt 118,000 against 89,000 last year, in India 597,000 against 714,000 last year; and in the United States 413,000 against 615,000 last year.

SPANISH LOSE IN FIGHT.

Trouble in Morocco Grows Worse—100 Men Killed.

Paris, June 9.—The correspondent of the Temps at Marnia, Morocco, today telegraphed that a clash had occurred between the Spanish troops and a force of tribesmen at Soul Arba Dekert. The Spanish losses were 100 men killed. The tribesmen suffered a loss probably sixty dead.

Fez, Morocco, June 5., via Tangier, June 9.—Berber tribesmen made an audacious attack today upon the French column as it was moving toward Mekinez, 34 miles southwest of Fez.

A force of native cavalry composed of 600 men engaged the berbers and succeeded in driving them back. The French losses were five killed, and twenty wounded. The tribesmen suffered many casualties.

LADY DECIES ALMOST WELL.

Titled American Expects to Take in Coronation Festivities.

New York, June 9.—Friends of Lady Decies, who was Miss Vivien Gould, learned today that she has practically recovered from her operation for appendicitis.

She is taking daily drives in the London parks and will be able to take in the coronation festivities.

Oklahoma City, June 9.—State officials are opposing the appointment of W. T. Vernon, of Kansas City, Kas., a negro, as assistant supervisor of Indian schools for the five civilized tribes of Oklahoma. Announcement of his appointment was made Wednesday. State Senator E. M. Landrum, a Cherokee Indian, has prepared a protest to the Secretary of the Interior and the protest has received the signatures of many state officials.

A MORMAN TO TESTIFY.

To Tell House Committee What He Knows of Sugar Trust.

Washington, June 9.—The House Special Committee to investigate the American Sugar Refining Company has decided to summon Joseph Smith, president of the Mormon church, to tell what he knows of the dealings of the so-called sugar trust, with the beet sugar interests controlled by the Subpoenas will be issued for leading beat sugar men in the West. Chairman Hardwick of the committee, said today that the committee will begin its public hearings Monday with the testimony of eastern sugar men, and that President Smith and other Western men will not be heard until the Eastern witnesses have finished their testimony.

COTTON BILLS OF LADING.

Bankers' Conference at New York to Consider the Question.

New Orleans, June 9.—It was announced in financial circles here that New Orleans banking interests had been invited to attend a conference in New York on June 19, at which the cotton bill of lading proposition would be thoroughly discussed with a view of arriving at some agreement which would be satisfactory to all interests concerned.

The plan put forth by the New York and English bankers last Fall to guarantee cotton bills of lading was strongly objected to by Southern interests, it being claimed that the tax for this purpose would fall upon the planters.

THE SOUTH CAROLINA MILLS.

May Be Closed for Two Weeks in July and August — Officers.

Asheville, N. C., June 9.—The decision to bring about a curtailment of output by the closing of every mill in South Carolina, for two weeks in July and August of this year, was the feature of today's session of the South Carolina Cotton Manufacturers' Association. The reports read showed that at least 25 per cent. of the spindles in South Carolina are now idle and have been for some time.

The following officers were elected: President—E. A. Smyth, Greenville, S. C.; secretary, C. S. Manning, of Greenville; treasurer, J. A. Brock, of Anderson, S. C.

HIGH SPEED TURBINE.

Successful Test Made on Collier Neptune Yesterday.

Baltimore, June 9.—A successful test was made today on the U. S. collier Neptune at Sparrow's Point, on a high-speed turbine engine with a horizontal motion and a reduction gear invented by Rear Admiral George Melville, U. S. N. (retired.) The reduction gear is placed between the turbine and the propeller to reconcile the high speed of the turbine with the speed of the propeller. A great economy of space is effected by the substitution of teh new type of engine for the old style reciprocity turbine

HONOR HAMMOND IN LONDON.

Dance Given by Whitelaw Reid in His Honor as Coronation Event.

London, June 9.—Whitelaw Reid, the American ambassador, and Mrs. Reid tonight gave a dinner and dance at Dorchester House in honor of John Hays Hammond, United States ambassador to the coronation of King George, and Mrs. Hammond. The function, which was one of the most brilliant of the season, brought together a notable gathering of diplomats, statesmen, soldiers and social leaders of England and many Americans, who have come to London for the coronation.

SHOULD OBSERVE FLAG DAY.

President General of D. A. R. Issues the Proclamation.

Washington, June 9.—Mrs. Matthew T. Scott, president general of the Daughters of the American Revolution, today urged that members of that organization throughout the country observe flag day June 14th, in some way.

She asks that wherever possible members display flags on their residences and that all use their efforts to have public buildings appropriately decorated.

CHARLESTON BASEBALL CLUB.

Secretary of State Issues Commission for Corporation.

Columbia, S. C., June 9.—The Secretary of State today commissioned the Charleston Baseball Corporation to provide for, own and maintain a baseball team and contract with baseball players, to have, own and enjoy a franchise in the South Atlantic League, or any other league. The capital is $7,000, and the petitioners are Messrs. P. H. Whaley and H. L. Erckmann.

Rome, June 10.—At an early hour this morning a considerable crowd had gathered at the Aerodrome to witness the departure of the aviators, Beaumont, Garros and Frey, on the last stage of the aeroplane flight between Paris, Rome and Turin. Every one was in a high state of excitement and there was much speculation as to whether the aviators would be more successful in crossing the Peaks of the Apennines than was the late George C. Harvez in flying over the Alps.

BRUTAL MURDER.

Woman Foully Dealt ..... in Philadelphia in Horrible Manner.

Philadelphia, June 9.—After preparing lunch for her eight daughters and seeing them safely off to work and school, Mrs. Antonette Foster, aged 37 years, today laid down for a brief rest in her little home in the northern section of this city.

A few hours later she was brutally murdered. The police are searching for her husband, a huckster whose fondness for drink, it is said, had caused bitter quarrels between him and the dead woman.

The woman's body, her head crushed, supposedly with the leg of a table which was found covered with blood in another part of the house, was discovered by her daughter Mary, aged 14 years, when she and her three sisters came from school.

Washington, June 9.—The Comptroller of the Currency today issued a call for a statement of the condition of all National banks at the close of business Wednesday, June 7th.
